### CPC Test Calendar

Call	Freq	Date	EST Time
WVHI	1330	April 19, 1993	0100-0400

From the Publisher ... Ernie Wesolowski, at several locations in his travels, noted a 1 kHz tone, or het, on the upper side of 1000 kHz, which seemed to emanate from central America or Cuba. His note to the FCC generated a request for further information from other DX'ers, including a general idea of the direction of the transmission. If you hear it, send details to the Federal Communications Commission, Field Operations Bureau - Attn.: Signal Analysis Branch - 1919 M. Street NW - Washington, DC 20554. Ernie also asked that anyone who was interested in sharing a ride to the IRCA convention in June could contact him - 13312 Westwood Lane - Omaha, NE 68144-3543.

Ken Chatterton, NRC Publications manager, asks that anyone who received a station location map book which isn't quite right to let him know the nature of the problem so that he can replace them; don't return faulty copies unless he asks for them.

Dave Schmidt ran across another supply of NOS radio tubes. You can send an SASE for a list to Typetronics - Box 8873 - Fort Lauderdale, FL 33310. Tubes are listed in alpha order.

New member José Benito Martínez is writing a book on radio formatter Bill Drake and would like information from anyone familiar with the stations that Drake formatted in the '60's and '70's, such as WHBQ, CKLW, KAKC, WOR-FM, plus from music surveys, air talents, format changes, etc. Contact him at KYNO - 2125 N. Barton Ave. - Fresno, CA 93703-2698.

A new book from TAB books, *Shortwave Listening for Beginners*, by Anita Louise McCormick, includes a chapter on "Long-Distance AM Listening" (plus information on the NRC). Although the book is of course oriented towards shortwave listening, it is crammed with sources of information about equipment, clubs, etc. The paperback version is available at \$10.95; for

more information, contact Kimberly Martin at (800) 233-1128, x232.

Jim Conrad's annual GTG for DX'ers will be in LaCrosse, WI May 21-23 at the Holiday Inn. You can get more information by phoning Jim at (319) 232-7307; the reservation line to the hotel is (608) 784-9500.

Welcome to these new members ... Louis M. Poda, Akron, OH (rejoins); Larry V. Flegle, Woodstock, GA; Armand E. Pelland, So. Bellingham, MA; Charles A. Territo, Bridgewater, NJ; Stanley C. Byers, Glenview, IL; Walter G. Windish, Wayne, NJ; Harold F. Parshall N8FRP, Dayton, OH; José Benito Martínez, Fresno, CA; and Stephen Jarvis, Long Beach, CA.

### Remaining DXN Schedule, Volume 60

25.	April 23	May 3	28.	July 16 July 26
26.	May 21	May 31	29.	Aug. 13 Aug. 23
27.	June 18	June 28	30.	Sept. 10 Sept. 20

### DX Time Machine

From the pages of DX News:

50 years ago ... from the Apr. 10, 1943 DXN: Stuart Leland, Stamford, CT reported that WJSV-1500, formerly owned by James S. Vance, became WTOP on April 4. Ray Edge, Buffalo, NY was one of the few easterners to hear the March 27 DX from KBPS-1450 and had received a verie ... From the Apr. 24 DXN: A list of all Canadian BCB stations was published, courtesy of Al Bartholomew, Bradford, NY. Editor Ray Edge, Buffalo, NY reported that he had verified 92 new stations since Oct. 1, 1942.

25 years ago ... from the April 13, 1968 DXN: A number of members complained about the "waste of space" for April Fool's items ... others reported "grinning for the rest of the day".

10 years ago ... from the April 18, 1983 DXN: Brian Vernon, Gamsell River, NWT reported hearing WPTF-1540 several times, but not KXEL ... Pete Kemp mentioned the death of Arthur Godfrey in "Radio Roundup."

# AM Switch

**Jerry Starr**  
c/o WHOT Radio

790 WWDB SC Bamberg	WRIT	1140 KPRW OK Oklahoma City	KVSP
910 WVVO SC Dorchester	WIMZ	1170 WARW NY Cornwall	WRWD
1080 WRIT SC Walterboro	WALD	WVZN VA Lynchburg	WKPA
1110 WMMX OH Fairborn	WGNZ	1230 KBMN MT Bozeman	KZLO

## APPLICATIONS/GRANTS FOR NEW STATIONS

None

**KQWAC**  
AM STEREO RADIO 1490

## APPLICATIONS FROM EXISTING FACILITIES

750 WNYS NY Canton: reduce day power to 2500 watts (this is a new station that has not yet been built)  
980 WWRC DC Washington: day power to 50000 watts  
1140 WNHA NH Concord: reduced power to 2500 watts (this is a new station that has not yet been built. Note that the Log incorrectly gives this call as WHNA)

## GRANTS TO EXISTING FACILITIES

740 WIAC PR San Juan: relocate transmitter site  
1500 KUMU HI Honolulu: powers to 50000/50000 W2, relocate transmitter site

## OTHERNESS

580 KZMX SD Hot Springs, silent since mid February, station is again ON THE AIR, returned on 3-9-93 with a new country format  
750 KMMJ NE Grand Island: local monitors report this station has recently been running at night even though the FCC continues to show them as a L3 station with no night operation to protect dominant WSB on 750. We don't have an answer for this one but will keep our eye on the situation.  
800 WKZI IL Casey: silent station is being sold and may return to the air soon (and just in case you might be interested, Casey is actually pronounced Kay-Zee)  
910 WIMZ SC Dorchester: silent as WVVO, is now ON THE AIR  
1020 KASR OK Perry: silent as KRAD, is now ON THE AIR  
1250 KKFV WA Seattle: station is SILENT  
1270 KDJ1 AZ Holbrook: silent station is ON THE AIR, had been off due to flood damage. By the way, their carry the morning show (6 to 9 AM MST) from KVNA-690 kHz in Flagstaff, then go into local programming  
1310 WDPN OH Alliance: the Log lists this station with the old call WFAH, it is now WDPN.  
1340 KSKI ID Hailey: station is SILENT  
1400 WGTN SC Georgetown: station is SILENT  
1460 KCCL AR Paris: station is SILENT  
1480 WJHB NC Fair Bluff: station is SILENT  
1500 WTNE TN Trenton: recently reported to be "silent for repairs" but we wonder if perhaps they are finally

exercising their CP to move to 890 kHz. The Log already lists WTNE on 890. Can somebody in that area check this one out please?

1530 WCRJ FL Jacksonville: station is SILENT  
1550 WVAB VA Virginia Beach: after several false starts, this silent station is ON THE AIR with business talk 24 hours a day (Yes, they DO run 9 watts at night)  
1580 WWOE NC Camp Lejeune: station has been SILENT since the "Storm of the Century". Reporter Mike Hardester reports their transmitter and antenna site appears to still be intact. A call to the station was answered by the cleaning lady at the church where the studios are located. She had no knowledge of the station.  
1600 WWBR TN Harriman: license renewal for this station which has been silent since 2/88 has been DISMISSED, looks like you can delete it from your Log.

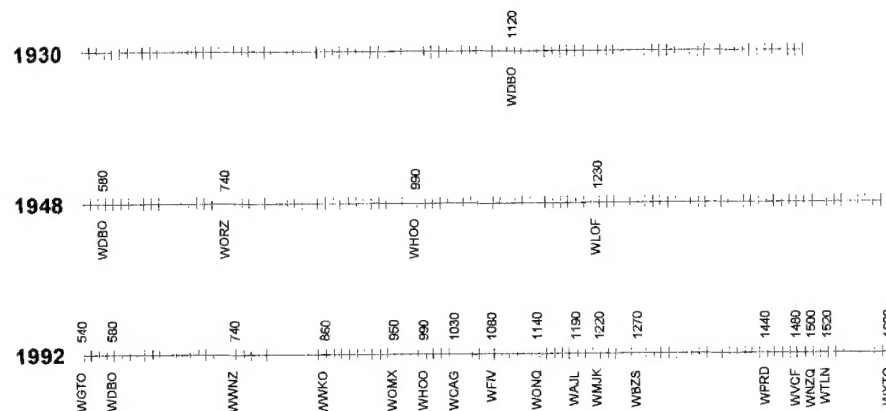

**THANKS:** Al Merriman, Mike Hardester, John D. Bowker, Bob McCoy, Ed Krejny, Paul Page, Ron Musco, Roy Varner and MSJ.

73 and Good DX, *Dmy BKF* Jerry Starr & Buffalo K. Fooman

## Now and Then John D. Bowker

*Dial changes in AM markets, from 1930 to 1948 to 1992*

## ORLANDO, FL MARKET

 The highlights of the 1992 NRC Convention at Omaha are available on four C-90 cassette tapes in a convenient carrying/storage case for \$9.50. Order your set now from NRC Publications. New York residents, please add sales tax.

## DDXD-North

### MEDIUM WAVE RAMBLINGS

- ❑ The deadlines are very important now that we're into the non weekly schedule. Remember, DX older than 30 days from the time the column goes in to the publisher will be weeded out. So report soonly. Deadlines for DDXD-N are as follows (all Saturdays):

Issue 26	May 15	Issue 29	Aug 7
Issue 27	Jun 12	Issue 30	Sep 4
Issue 28	Jul 10		

- ❑ Thanks to **Bob Gilfert** for the phone call. Always nice to hear from you *Easterners*. And **Tom Bryant** of Nashville writes with some unID help. Maybe.
- ❑ **Richard Palmer** of Decatur, Illinois settles an unID question from the MBDXP three issues ago. See details in Beacons. Thanks, Richard. Hope to hear more from you. I used to live about 70 miles from there!
- ❑ For those of you who have purchased the new **Mapbook**, I have a one correction for you which will require little effort. On Page 126 (1400 kHz list, 2nd page), change the number for WTIJ Roxbury, NH from 98 to 100. Prior information had the location near Hanover, but newly acquired data shows the Roxbury transmitter location less than 5 miles from that of the CP for Marlborough. So, one of those has to be deleted. Don't know how the FCC could license two stations on the same frequency so close to each other... well, maybe... so will retain both listings until we hear something solid through the **AM Switch** column. Other than a few deletions, and of course all the call letter changes, the Mapbook is still in good shape. And we're two months after the baseline!
- ❑ DX Reports are welcome via mail, phone (208-888-7398 before 2100 Mountain Time), Prodigy (MTPH12A) or the Broadcast Message area on FidoNet.
- ❑ The offer still stands for the free DDXD Reporting sheets. Send a legal sized SASE (2 ounce rate) and request them with your next report. What the heck? Use 'em up. We'll print more.
- ❑ Add one radio-related program on shortwave. I just saw on FidoNet that a new program called *Spectrum* will debut on May 2 at 0330 UTC from WWCR on 7435 kHz. It's supposed to cover "dirt to daylight". Other than that, I have no other details. CU May 3.

ISN'T THAT SPECIAL

**kchj**  
1010 AM  
"Radio Adventure"

- 1030 **WCTS** MN **Maplewood** - 3/12 2358 - Good with GOS music, weather report, TC & WCTS ID: *You're listening to the bible station, WCTS AM Maplewood-Minneapolis-St. Paul.* New. (SA-MB)
- KBEQ** MO **Blue Springs** - I saw on FidoNet where **KBEQ** is now **C&W**, and simulcasting with Kansas City sister station **KBEQ-FM 104.3**. [Ed.-ID]
- 1290 **WAMX** MI **Saline** - 3/14 - No longer 102.9 **WIOB**, as is back to AC format which they were 10 years ago. Slogan - *Ann Arbor's Adult Music Experience - WAMX*. This is their 7th format change in 12 years, so the success story continues. Ex: **WNRS, WIBQ**. (JL-OH)

- 1600 **KWMX** CO **Lakewood** - 3/17 0650 - Good with lite rock/CHR music, lots of *Mix 107* point 5 non-IDs. At 0655 **KWMX FM, AM Lakewood-Denver**, a division of *Jefferson - ? Communications ID*. Ex: **KRRY**. New. (SA-MB) [Maybe that was *Jefferson-Pilot Communications (?)* - Ed.]

### UNIDs and UNID HELP

- 1060 **UNID** ?? - The unID heard by **MH-NE** on 2-28 at 2024 [See Issue 19 -Ed.] is definitely NOT **KGFX**! They have a country format, while **KGFX-FM 92.7** is rock. They never simulcast. *The All-New 93* is a slogan never heard on either **KGFX AM** or **FM**. The FM uses the slogan **KG 93**. (BM-SD) [**Mitchell Scott Paul** of Minneapolis reports (via phone) that he's heard a good, clear ID from **WPMX** Tupelo, MS along with their rap format and an ID as *The New 92*. And I ID'd Mitchell as "Michael" last issue, too. Grrrr - Ed.]
- 1080 **UNID** ?? - 3/13 2353 - Good with OC and TT. Bits of country music between TTs. Gone at 0001. No ID ever given. (SA-MB)
- 1220 **WFKN** TN **Franklin** - or  
**WAXO** TN **Lewisburg** - Either may be **Rick Dau's** unID (Musings Issue 21) with *Commodore Radio Network*. Maybe some of the sports gurus can throw a dart at the right one. I don't have access to **Vandy's** station list, and their PR office doesn't seem to know much more than the fact that **WLAC** is their flagship station! If both of these guys carry it, you're outta luck! (TB-TN) or any of at least six other stations from Alberta to Ontario could be **RD-IA's** unID [see Issue 21 -Ed.] with mention of *Canada's Coast-to-Coast*. (SA-MB)
- 1230 **CJLB**
- 1420 **UNID** ?? - NO DATE 0522 - Heard CL **WPBQ** with AC music. Could this have been **Owensboro, KY**? Poor ⇒ fair signal. (AM-IL) [One of their 3 nighttime lobes does favor your area, but the CLs don't match. Unless they simulcast, and the CLs you heard are the FM's - Ed.]

### DX AND EQUIPMENT TESTS

- 790 **WLKW** RI **Providence** - 3/29 - CIDs heard on DX Test. Think it was only on 0003-0007. JS-OH)
- WLKW** RI **Providence** - 3/29 0000-0015 - Not heard amongst the jumble. (JL-OH)
- 960 **KGWA** OK **Enid** - 3/1 - Although test was a no show as mentioned in this section in Issue 22, it WAS NOT a second no show. The first test indeed ran, and I was among those who heard it. In writing up the test info for the 3/1 test [See Issue 16 for the notice - Ed.], I said *The test which ran in December was conducted on standby equipment and Mr. Clark has asked to repeat the test for the benefit of DXers*. Mr. Scott Clark, the CE at **KGWA** ran the test in December, but because of an equipment problem with the main transmitter, had to run the test on standby equipment. Even though he would have had an excuse not to run the DX test, he did so anyway, even though he could not use his normal transmitting facilities. Mr. Clark telephoned me the next day and explained the situation and asked if the test could be repeated when the main transmitter was up and running. TO ALL DXers... PLEASE read the DX test notices carefully. Often the blame is placed on the station personnel when careful reading of the notices could prevent incorrect assumptions. (J.D.)
- Stephens - IRCA CPC Chairman** [Ditto on the comments about assuming a test did not run just because it wasn't heard in your shack - Ed.]
- 1090 **KTNS** CA **Oakhurst** - 3/9 0300 - Only **KAAY**. Nothing heard from test station. (SA-MB)
- 1150 **KWKY** IA **Des Moines** - 3/15 0100-0130 - Heard 1 kHz IT at 0114. That was it as **CKOC** dominated the frequency. (JL-OH)
- 1280 **WCPM** KY **Cumberland** - 4/1 0100-0115 - Test consisted of 1 kHz TTs lasting from one to three minutes with 30 second breaks in between. These breaks could have contained VIDs, but I couldn't hear any because of the usual 1280 pile-up. Poor ⇒ fair under **WJAS/WWOK/unID SS**. (JL-OH)

## TIS STUFF

- 1610 TIS CA **Dunsmuir (ncar)** - 3/29 0710-0735 - Fair with message explaining California's Inspection Station Program. *You are approaching the California Department of Food and Agriculture Inspection Station. All vehicles must stop ... Located on Interstate 5.* (JW-OR)
- TIS WI **Kenosha** - 3/13-14 - After listening to this TIS for several cycles of the tape loop, have determined they **do not** give their call sign. Just gives standard what-to-see and what-to-do stuff and 1-800 number as reported previously. (TR-WI)
- 1620WNWZ9xx IL **Bentonville** - Is most likely **DHM-IA's** unID [Issue 20-Ed.], which is a PIS (Public Information Station). (SA-MB)
- UNID CA? - 4/2 0520-0600 - Poor with a few readable words. Woman with recorded message concerning a library or museum. Looped NW-SE. Probably California. Believe this is signal recently reported by **DHM-IA** [Issue 20 - Ed.]. Heard occasionally since January. (JW-OR)

## BEACONS

- 512 XKQ OK **Lexington** - This is the unID Bee-Cone heard by the **MBDXP** (Issue 21). Located at Lexington, it's operated by the Oklahoma Military Department, Army Aviation Support Facility, OKARNG, Highway 39 East & 144th Avenue, Lexington, 73051-9549. (RP-IL) [Also IDed by **Randy Masure** of Bushkill, PA. Thanks, guys! Another mystery solved! - Ed.]

## MIDNIGHT TO 0800 HOURS ELT

- 550 KMVI HI **Wailuku** - 3/15 0450-0500 - Good with music program *Sound of Portugal*. Announcement about TV channels off due to weather! Sign-off for maintenance at 0458 with SSB. (JW-OR)
- 830 KIKI HI **Honolulu** - 3/29 0500 - Fair with ID: *Hawaii's oldies and classic rock station, KIKI Honolulu.* (JW-OR)
- 1080 CKSA AB **Lloydminster** - 3/14 0015 - Good with weather for Lloydminster, local ads ⇒ C&W music. IDs as *Country One-Oh-Eight*. No longer CHR. (SA-MB)
- 1370 WHPD OH **Toledo** - 3/26 0002 - Good with *Kansas vs California* basketball in the NCAA tourney. Ad for *CNA Insurance*. (TR-IL)
- 1410 KRWB MN **Roseau** - 3/22 0630 - Strong with sign-on (new time). Power and other info is good. (SA-MB)
- 1430 CJCL ON **Toronto** - 3/31 0448 - Poor ⇒ fair with slogan *Sports Radio 1430, The Fan* in *Blue Jays vs Phillies* baseball game. (AM-IL)
- 1480 KCGX MT **Sydney** - 3/16 0657 - Good with *KCGX* ID ⇒ MBS News, and C&W music afterwards. (SA-MB)
- 1580 WEAM GA **Columbus** - 3/13 0458 - Poor ⇒ fair with black gospel music. (AM-IL)

## 0800 TO 1600 HOURS ELT

Zippol

## 1600 TO 2400 HOURS ELT

- 650 WSM TN **Nashville** - 3/30 2318 - Fair with ads for **Bob Evans Restaurant & General Store**, Nashville Now on TNN, and **J.B. Hunt Transport**. (TR-IL)
- 660 WFAN NY **New York** - 3/9 1930 - Poor in WMAQ splash. Surfaced briefly with ad for **Chase Manhattan Bank**. (TR-IL)

- 690 CBF PQ **Montreal** - 3/30 2315 - Good with FF talk mentioning *Quebec*. FF music on order of heavy metal rock. EE 940 CBM absent. (TR-IL)
- 760 WJR MI **Detroit** - 3/30 2313 - Fair with Michigan and Ontario road conditions on *WJR's Road Watch America*. (TR-IL) [That sounds like an IRN slogan? - Ed.]
- 800 CKLW ON **Windsor** - 3/30 2310 - Fair ⇒ poor with talk about police scheme to execute outstanding arrest warrants. (TR-IL)
- 820 WBAP TX **Fort Worth** - 3/30 2308 - Fair ⇒ poor with *Sports Byline* show. (TR-IL)
- 840 WHAS KY **Louisville** - 3/30 2305 - Poor ⇒ fair with ads for **Terminex & Value Rite Pharmacy**. 84 WHAS brings you the news around the clock followed by weather and *Newsradio 84* slogan. (TR-IL)
- 860 CJBC ON **Toronto** - 3/30 2323 - Fair ⇒ poor with FF interview show. EE 740 absent. (TR-IL)
- 910 KUIS OK **Miami** - 3/10 2303 - Fair ⇒ poor with ad for music knowledge preceded by, and followed by, news. [??? - Ed.] said from the Washington News Desk. ID mentioning also || 100.9 KGLC. New. (TR-IL)
- 950 WPEN PA **Philadelphia** - 3/8 1806 - Poor in CKBB null with ID as 950 AM WPEN ⇒ BBD-era schmalz. (MB-ON) [Schmalz!? - Ed.]
- 1050 CHUM ON **Toronto** - 3/30 2330 - Fair ⇒ poor with oldies and slogan *Toronto's All-Oldies Station*. (TR-IL)
- 1120 KMOX MO **St. Louis** - 3/9 1952 - Good with talk about hockey contract of **Brett Hull** of **St. Louis Blues** with *Blues* president. Sports Open Line promo for **Jim White Show**. (TR-IL)
- 1180 WHAM NY **Rochester** - 3/9 1950 - Good with sportstalk with Rochester newspaper sports columnist talking about baseball stadium. (TR-IL)
- 1310 WTLC IN **Indianapolis** - 3/9 1830 - Good, creaming CIWW, with promo for *Sesame Street Live* at Market Square Arena sponsored by WTLC. ID as *Gold at heart*, AM 1310 WTLC, Indianapolis ⇒ *Take The A-Train*. Last heard as WTUX. They've been through many calls since I first logged them in 1977 as WIFE. (MB-ON)
- 1550 WBST IN **Muncie** - 3/9 1945 - Fair ⇒ poor with oldies. New. (TR-IL)

## NEWS AND VIEWS

Welcome to first time reporter Ian Meyers of Forest Hills, New York. Ian mentions that he just purchased an R-8, and would like to purchase a phasing unit from one of the club members, if anyone has an extra sitting around or would be willing to build one for him. Anyone interested send me a note and I will forward it to him.

Mike Hardester checks in with a possible storm related silence, and mentions that he was listening to his various locals during the storm, as well as his scanner, and was disappointed in the lack of local news, including by the disaster nets on the scanner, which were silent!

Bruce Conti also sends along some storm related items, and says he got 2 feet of snow from the blizzard on top of the two feet or so already on the ground. He indicates he may have had enough snow for the year now.

Another blizzard related item - Ed Urzi says he is now the not-so-proud owner of an "Instant Sloper" courtesy of the storm. Wonder if that has helped him with loggings?

Bob Gilfert says he purchased an Ameco TPA and a MWL-900-PA from Alan Meriman and DXing will never be the same. He heard seven previously unheard semi-locals in less than hour, thanks to the new equipment. He also says he got five veries in the mail last week.

On the new receiver front, Jim Bagge has purchased an R5000, and Leslie Wood has obtained a GE Superadio from LaBelle Camera/Audio/Video.

Joe Kureth sent along his Delaware logs; he has heard everything in the state! Well there is a new FM he hasn't heard yet... Joe says he is still (as of 3/26) walking up and down his driveway as a result of the storm on the 13th.

The next deadlines for DDXD-East are May 15, June 12 and July 10. Don't worry too much about when you send the information, that's one of the joys of word processors!

## SPECIAL

980 WILK PA Wilkes-Barre - 3/13 1859 - Weak under WTRY with "...WILK 980 AM Wilkes-Barre and WGBI 910 Scranton". Then a winter storm report. (EU-NY) (Are these two simulcasting now? - db)

1270 WSPR MA Springfield - Still silent but newspaper says it's being purchased by owner of WRCP-Providence, RI and will have ethnic format and be on the air soon. (JB-MA)

1520 WWKB NY Buffalo - Looks like this puppy is back on AN with Spanish programs!! Yeech!! (DS-DE) (Promo ID heard as I'm typing this was "Howard Stern in the morning, talk all day, sports in the night", guess those listening at this time wouldn't be interested in the spanish! - db)

1540 WREJ VA Richmond - 3/15 1810 - Call change, was WRBN, ID as "Rejoice Radio", gospel music, fair. (ES-NJ)

## THE BLIZZARD OF '93

550 WSWA VA Harrisonburg - 3/12-3/14 - Total dominance of the frequency with storm updates and snow closures. (BG-DC)

580 WHP PA Harrisburg - 3/13 1525 - Very weak - suspect on low power. (DS-DE)

720 WWII PA Shiremanstown - 3/13 1200 - Noted off. (DS-DE)

740 WVCH PA Chester - 3/13 1400 - Noted off. (DS-DE)

900 WMVU NH Nashua - 3/13 2140 - Noted on past their usual 2100 sign off with classic rock music and blizzard updates. (BC-NH)

920 WTTM NJ Trenton - 3/13 1430+ - On/off 10 minutes at a time. (DS-DE)

950 WROL MA Boston - 3/13 2147 - Noted with open carrier, studios must have been knocked out by the blizzard. (BC-NH)

1020 WKZE CT Sharon - 3/13 2211 - Good on emergency broadcast with list of cancellations due to blizzard, over KDKA and Venezuela. (BC-NH)

WKZE CT Sharon - 3/14 0000 - Fair/good over/under KDKA with MOR/Standards, storm info and WKZE-FM IDs. (DS-DE)

1110 WNNW NH Salem - 3/13 2317 - Emergency broadcast with phone callers on the air and merengue music, all in Spanish. (BC-NH)

1180 WJFF RI Hope Valley - 3/13 2332 - Fair on emergency broadcast with CW music and radar weather updates, over WHAM. (BC-NH)

1190 WMRE PA Hughesville - 3/13 2023-2045 - Noted with FM simulcast of WHTO-103.9(WHOT IDs) - fair with no WOWO. (DS-DE)

WMRE PA Hughesville - 3/13 2343 - Fair on emergency broadcast, WMRE/WHOT IDs, simulcasting 103 FM, over/under WOWO. (BC-NH)

1310 WSSJ NJ Camden - 3/13 1520 - Off. (DS-DE)

1320 WDER NH Derry - 3/14 0013 - On emergency broadcast at full power, past usual 2100 sign off, with Christian music and weather updates. (BC-NH)

1330 WESR VA Onancock - 3/13 1845 - Strong with storm info, flooding, FM simulcast. (DS-DE)

1360 WNJC NJ Washington Township - 3/13 1000 - Off by this time, off all day 3/14. (DS-DE)

1410 WDOV DE Dover - 3/13 1300+ - Low power. (DS-DE) (You want to know how close I am to them...they sounded normal here - db)

1440 WREY NJ Millville - 3/13 1458 - Noted off, all WNPV. (DS-DE)

1450 WILM DE Wilmington - 3/13 1200 - Reduced power until 2300. (DS-DE)

1470 WTZE VA Tazewell - 3/13 2010 - Giving total snowfall in area, ID, fair. (DS-DE)

1480 WAJA NC Franklin - 3/15 0113 - Atop with storm info, ID. CW music. Also 3/16 0005 with closings. (DS-DE)

1520 WGAM MA Greenfield - 3/13 1830 - Good with storm info, ID, "AM Only" satellite feed. (DS-DE)

1580 WLIM NY Patchogue - 3/13 1840 - Strong with storm info, ID, standards. (DS-DE)

WWOF NC Camp Lejeune - Noted off AM/PM of 3/14. Uncertain if storm related or other reason. Noted off 3/15 as well. Still off 3/22. Called several times, but no answer. 3/19 phone was finally answered by a woman who was there "cleaning the church for services". She knew nothing about the station (if it was on or off the air) and advised that there was no one else there to ask. The church/studios are in the same building. I've driven by the transmitter site and the antenna is still there, so who knows? (MH-NC)

1590 WCZN PA Chester - 3/13 1700 - Noted off. (DS-DE)

## DX TESTS

550 WDEV VT Waterbury - 2/22 0405 - Morse code ID, fair-good under WGR. (WPT-DC)

640 WWJZ NJ Mount Holly - 3/1 0002-0014 - Easiest catch yet on DX tests (like catching fish in a barrel, hi). CE gave brief history of station, CID. In like a ton of bricks at times. (WPT-DC)

740 WVCH PA Chester - 3/8 0300-0331 - Fair to good with VIDs, CIDs and "European Police" type TTs. Mostly clobbered by local WGSM after 0315. (EU-NY)

790 WLKW RI Providence - 3/29 0007-0015 - No sign of this during this time, only WTAR and CIGM. (DB-DE)

WLKW RI Providence - 3/29 0000-0006 - With jazz music, ID and mention of IRCA, followed by code message. On top of channel at 0000, faded 0004, disappeared 0007. (AR-ON) (Which would explain my not hearing it from 0007+, I knew I should have gotten out of bed sooner - db)

830 WKTX OH Cortland - 3/1 0100 - Zzzz'ed through it. (WPT-DC)

- 940 WECO TN Wartburg - 3/27 0018-0030 - Fair with TTs, "TEST DE WECO" CIDs and bluegrass music. (EU-NY)  
 960 KGWA OK Enid - 3/1 0315-0345 - This bird didn't show here. (WPT-DC)  
 1150 KWKY IA Des Moines - 3/15 0100-0130 - A no show; only WMET. (WPT-DC)  
 1180 KKAR NE Bellevue - 3/15 0100-0130 - Too much WHAM with a little LA thrown in. (WPT-DC)  
 1190 WOWO IN Ft. Wayne - 3/4 0006-0100 - Noted on test with "fluttering" TTs and a couple of tunes, including one by ELO. (EU-NY)  
 1530 KPCR MO Bowling Green - 3/8 0100-0120 - No show, just WCKY. (WPT-DC)  
 1530 WVFC PA McConnellsburg - 3/22 0040 - Heard using tone signal, station ID, and then announcement that "test is concluded will return at 6:30 AM tomorrow". (LGW-NY)

### UNID AND UNID HELP

- 690 CBKF1? SK Gravelbourg - 2/28 1827 - French over/under CBF, completely gone at 1830. Canada mentioned several times. Any other ideas? (JEK-MD)(A great catch if it is - db)  
 900 UNID 3/1 1945-1955 - Hockey game between Montreal and Boston. ID at 1950 as "You're listening to the CJAD Montreal Canadians Hockey Network". Fair under CHML. (JB-MA)(CKTS-PQ relays CJAD - db)  
 900 UNID 3/27 2225 - Sports talk call in show over/under CHML which had Toronto hockey. Faded by 2230. Second time this year I've heard this, once in the AM. Any ideas? (DB-DE)  
 1110 UNID Way under WBT with CNN news and many IDs as "1110 CNN" and "Newsradio 1110". Nothing in log seems to fit. (IM-NY) (Depending on the time, since it is shown as a daytimer, how about WWRX, East Providence, RI? - db)  
 1280 UNID 3/11 1859 - Good for a while with music by Paul McCartney, but faded at ID time. Was able to pick out "This is 98.2 FM <fade>... WETF... Easy 98". (EU-NY) (How 'bout WECY, Seaford DE. They simulcast with WECY FM 98.3 with soft AC type music - db)  
 1350 UNID 3/23 2304 - Someone weak with oldies, same as WHBG's (Jones Satellite Service). (DS-DE)  
 1460 WPRWt VA Manassas - 3/22 1930 - In and out with 3 others with CW selections. Initially thought WGNB but pretty clear ID popped out at 1938. (IM-NY) (A phone call to my brother in Reston, VA on 4/4 confirms that WPRW is still silent. They are supposed to come back with children's format as WKDZ - db)  
 1530 UNID 3/12 2220-2400+ - Loop of 21 oldies (*Baby Don't Let Your Dog Bite Me, Bye Bye Love, La Bomba...*) repeated every 53 minutes with no IDs, announcements, or commercials, over WCKY. (BC-NH)  
 1530 UNID 3/13 0013 - Continuous oldies under WCKY. Played in groups like Motown, Beach Boys, etc. No talk in between and no break at 0030. (JB-MA)  
 1530 UNID 3/13 0230 - Someone here with Oldies, no IDs, good in WCKY null, suspect WJDM who has been testing a lot lately. (DS-DE)(Due to the fire that Bob Harrison has kept us informed of, no doubt. Perhaps Bruce and Jim's UNIDs also - db)  
 1550 UNID 3/24 1820-27 - News "NewsTalk 16" slogans. During newscast sports guy noticed anchor woman was wearing an engagement ring for the first time. (BG-DC)  
 1580 UNID 3/15 0700-0745 - In WWOV absence noted usual WPGC and UNID occasionally fading up over WPGC. ID sounded like WPOP/WBOB. After ID, heard mention of "currently 26 degrees..." Format sounded CW, but WPGC was just too strong. (MH-NC)

### 0000 to 0800 ELT

- 530 CIAO ON Brampton - 3/29 0300 - English announcer with rock into Italian program at 0300. (ES-NJ)  
 670 WWFE FL Miami - 3/22 0515 - Spanish news, weather, "Radio Fe", good. (ES-NJ)  
 690 WJOX AL Birmingham - 3/14 0545 - With sports talk, calls taken, weak, list 500 watts. (ES-NJ)  
 740 WIAC PR San Juan - 3/26 0430 - "WIAC San Juan," "Muy buenas dias," good. (ES-NJ)  
 790 CIGM ON Sudbury - 3/21 0218-0237 - Fair with *Country Coast-to-Coast*. (BG-DC)  
 910 CKLY ON Lindsay - 3/22 0006-0018 - Fair with new wave/progressive sounding stuff. Call letter ID at 0018. (BG-DC)  
 1050 CHUM ON Toronto - 3/20 0103 - In under WEVD with "CHUM" ID, and British rock sounds. (LGW-NY)

- 1060 WBIV MA Natick - 3/29 0200 - With KYW off. Very weak. I'm probably in a major null to protect KYW. "AM 1060 WBIV, Boston's new station for today's best Christian music. (ES-NJ)  
 1270 WCBC MD Cumberland - 3/18 0345 - *Jim Bohannon Show*, "AM 1270 WCBC", fair. (ES-NJ)  
 1290 WNBF NY Binghamton - 3/14 0100 - Call letter ID and into UNID news; gone before 0101. (BG-DC)  
 WHIO OH Dayton - 3/22 0200 - ID into AP news, atop with WJBR off. (DS-DE)  
 CJBK ON London - 3/22 0205 - Suspect they with *Oldies Coast to Coast*, good (as usual) over WHIO. (DS-DE)  
 1300 WJFK MD Baltimore - 3/20 0300 - Relaying WJFK-FM 106.7 with 30 minute music sets. ID as "WJFK-FM Washington, DC, AM 1300 WJFK Baltimore", fair. (ES-NJ)  
 1310 WSSJ NJ Camden - 3/14 0008 - Fair with jingle IDs and pop music. (BC-NH)  
 1370 WXXI NY Rochester - 3/20 0315 - *Blues Spectrum* program, old Mississippi Delta blues songs, good. (ES-NJ)  
 1390 WLAN PA Lancaster - 3/20 0759 - Poor under WMZQ with ID only. Had been after this for a couple of days as I could hear something, and all the other York/Lancaster area stations were in louder than normal. (DB-DE)  
 1420 WLNA NY Peekskill - 3/14 0025 - Good with "AM 1420...your star station" IDs and the *Dangerous Disco Hour* on the *Saturday Night Oldies Show*. (BC-NH)  
 WLNA NY Peekskill - 3/14 0056 - NOS music, then promo for "The Saturday Night Oldies Show on WLNA". At 0100 ID as "This is 1420 AM WLNA Peekskill", then into AC music. New here. (JB-MA)  
 WKCW VA Warrenton - 3/24 0601 - End of the SSB then "This is WKCW 1420 Warrenton, we love our country". Then brief weather forecast and into CW music. At 0610 mentioned "The big 1420". In quite strong at 0615. New here. (JB-MA)  
 1520 KOMA OK Oklahoma City - 3/1 0300 - Tuned down from 1530 trying for a CPC test, WWKB off and heard KOMA for the first time in many a year. Oldies format with ID on the hour. (JEK-MD)  
 1550 WMDH IN New Castle - 3/22 0200 - Heard with talk show. Nice signal, first time heard here. What's their watt power? (LGW-NY) (AM Log shows them using 250 watts - db)  
 WMDH IN New Castle - 3/22 0405 - NBC news, local ads for radio bingo, ID as "Radio 1550, WMDH-AM New Castle", excellent at times, 250 watts. (ES-NJ)  
 1560 WPAD KY Paducah - 3/22 0400 - Standards from the 40's and 50's, ID as "You're listening to the original hits from the 40's, 50's and 60's on WPAD". (ES-NJ)  
 1580 WZKY NC Albemarle - 3/22 0155 - Way atop with ID, promo for news, "24 hour weather phone" (982-0111), 10 watts?? (DS-DE)  
 1590 WHPY NC Clayton - 3/13 0600 - Sign on with prayer and *Gospel Caravan* program in muck. (ES-NJ)  
 WFTH VA Richmond - 3/13 0603 - Sign on mixing with about a dozen stations. "WFTH Richmond, serving Petersburg and the Tri-State area." (ES-NJ) (I wonder what Tri-State area they would be referring to? - db)  
 1600 WKEN DE Dover - 3/3 0556 - Mentioned "Oldies 1600 WKEN". Also on 3/4 mentioned "Your station for rock and roll oldies, WKEN". Never did hear any music though. New here. (JB-MA)  
 WBBB WV Wheeling - 3/22 0010 - This 33 watt monster way atop with ID, "AM Only" standards format. (DS-DE)

### 0800 to 1600 ELT

- 1160 WMVI NY Mechanicsville - 2/13 1550 - In very well this early with big band music. (TF-CT)  
 1550 WLWX CT Bloomfield - 3/11 1525 - Religious programming, ID as "Christian 1550 WLWX". (ES-NJ)

### 1600 TO 2400 ELT

- 550 WICE RI Pawtucket - 3/12 2344-2400 - Fair with basketball on University of Kentucky network, including ads for *Kentucky Ford Dealers* and other Ohio Valley businesses, mention of WBLK, ID on the hour "WICE 550 AM stereo, Pawtucket-Providence" followed by CBS news and *Sports Final*. And I thought I had Cincinnati, #@\*#&?! (BC-NH)

KTAR620AM  
K-Lite 98.7 FM

- 730 **WFMC** NC **Goldsboro** - 3/23 1805 - Many local news/agricultural items for 10 minutes, "73-WFMC," phone number given 734-4211, excellent on peaks. (ES-NJ)
- 740 **WNNZ** FL **Orlando** - 3/6 2020+ - //104.1 FM Cocoa Beach. IDed as "WNNZ (wins) Sports Network"; Phillips sports talk show, clear and alone. (JEK-MD)
- 790 **CFAN** NB **Newcastle** - 3/23 1815 - Local events schedule, "CFAN-790" jingle, fair. (ES-NJ)
- 800 **WLAD** CT **Danbury** - 3/24 1812 - In with baseball contest and ID as "Red Sox network". (LGW-NY)
- CJAD** PQ **Montreal** - 2036 - Above CKLW, WLAD, et al with commercials for local bank, then man with many mentions of Montreal including Montreal police and city government. (IM-NY)
- 810 **WYRE** MD **Annapolis** - 3/13 1730 - With live program from Boat Show/Marina, poor with WGY interference. 250 watts. (ES-NJ)
- 830 **CFJR** ON **Brockville** - 3/29 2017 - Not new but unusually clear powerful signal, ID as "Canada's concert connection", promo for concert ticket giveaway. (IM-NY)
- 850 **WYDE** AL **Birmingham** - 3/16 1833-1839 - Many slogans as "Y-85", oldies over WNIS. (BG-DC)
- WPTB** GA **Statesboro** - 3/6 2125 - CW/REL music, local ads and ID, GA #87. (JEK-MD)
- WHDH** MA **Boston** - 3/24 2102 - usual dominance here despite handful of others on frequency, with *Marriott* commercial. (LGW-NY)
- WWJC** MN **Duluth** - 3/29 2014 - Sign off for central LSS, "We'll be with you again tomorrow on WWJC" into religious sign off. (IM-NY) (Good catch, fan! - db)
- WYLF** NY **Penn Yan** - 3/29 2022 - Above jumble briefly at sign off: "Join us tomorrow for another day of great music, news and weather for the Finger Lakes region. This is WYLF." (IM-NY)
- WRMR** OH **Cleveland** - 3/19 2354 - In with much QRM with advertisement for CNN, and "Warm 850" ID. (LGW-NY)
- WNIS** VA **Norfolk** - 3/10 2353 - Heard with talk show and commercial for *Don Don's Chevrolet*. First time heard here. (LGW-NY)
- 960 **WPMR** PA **Mount Pocono** - Rock music, "Station that was born to rock". IDs for "107.9, WPMR, Mount Pocono", commercial for *American Cookery* restaurant, took requests from Tobyhanna, in here well. (TF-CT)
- 1000 **WLNL** NY **Horseheads** - 3/8 1810 - Religious program to 18:17:30 sign off announcement. ID as "WLNL, The Lighthouse". (ES-NJ)
- WIOO** PA **Carlisle** - 3/17 1830 - "100 WIOO", "AM 100, WIOO", *Mike Hanner Show*, "Today's hits and yesterday's favorites", good. (ES-NJ)
- CKBW** NS **Bridgewater** - 3/13 2204 - Fair with "South Shore Radio" ID, under/over WLUP. (BC-NH)
- 1040 **WYFX** FL **Boynton Beach** - 3/13 2225-2300 - Fair with reggae music, ads for *Fidelity Federal African American Heritage* savings plan and *Consumer Credit Consultants*, 2300 ID "WYFX Boynton Beach - West Palm Beach - Miami", clobbered by WBZ splash. (BC-NH)
- KKPR** AM 1480  
Original Hit
- WYFX** FL **Boynton Beach** - 3/20 1851 - With nice signal and ID as "Greatest hits of all time on Solid Gold Saturday". "Foxy radio WYFX 1040." (LGW-NY)
- 1070 **WAPI** AL **Birmingham** - 3/16 1840-1900 - Excellent! With call in sports show, several call letter IDs. (BG-DC)
- WKOK** PA **Sunbury** - 3/17 1815-1819 - Good, mixing with several others. St. Patrick's Day stuff and snow closures. (BG-DC)
- 1110 **WNAP** PA **Norristown** - 3/19 1828 - Sign off with "God bless you and have a good evening" and power off. (ES-NJ)
- 1120 **WBIS** CT **Bristol** - 3/8 1755 - Ads to 17:59:45 pattern change. (ES-NJ)
- WGGH** IL **Marion** - 3/1 2006 - Ending newscast, "Carrying the good news into 5 states...WGGH". Interesting note, only heard this one once before 8 years earlier on the same date. (JEK-MD)
- WADN** MA **Concord** - 2/27 1750 - Way atop with folk music, female announcer, IDs for "Walden 1120", commercials for *Concord Colonial Inn*, time check for 2300 Greenwich Mean Time at 1800, BBC World Service news, gone by 1803, never heard here before. (TF-CT)
- WMSW** PR **Hatillo** - 3/16 1800 - "La Gran W", right up the old grayline with excellent signal, "WMSW Hatillo-Arecibo", spanish ballads. (ES-NJ) (Great! - db)
- 1150 **WMEX** MA **Boston** - 2/13 1632 - Over/under semi-local WCNX, IDs for "Magic 106.7", commercials for WBZ-TV-4 and other Boston businesses, cordial verie back in a week. (TF-CT)

- WHUN** PA **Huntingdon** - 2/27 1735 - Randy Travis record, "Put AM 1150 on your car radio button so we will always be there - on AM 1150, WHUN", into more country music, way over night semi-regular WDEL. (TF-CT)
- 1160 **WJJD** IL **Chicago** - 3/3 2318 - In and out with 1940's style female vocal, quickie "AM 1160 WJJD" ID, back into an instrumental. Didn't listen too closely at first, thought I had WOBM which runs a similar format. (EU-NY)
- WYNS** PA **Lehighton** - 3/18 1805 - Briefly over mess with call letter ID and into cover of Elvis tune *All Shook Up*. (BG-DC)
- WYNS** PA **Lehighton** - 3/24 2004 - End of newscast with Bob Hart, weather forecast, and "Wins" ID. (LGW-NY)
- 1170 **WHXT** MA **Orleans** - 2/14 1728-1747 - Never heard here before, in like a local, IDing as "Oldies 104", and "All oldies all of the time", commercial for car dealer in Plymouth, oldies of course, called station at 1745 to get correct AM call, announcer who answered phone said "Oh Oh!" and signal abruptly vanished! (TF-CT)
- KSUB RADIO** MA **Orleans** - 3/13 1814-1820 - Fair, excellent on peaks with OLD and "This is Cape Cod's very own...104". Lost at 1820 power cut. (EU-NY)
- 1260 **WWDC** DC **Washington** - 2/24 2010 - In briefly with mention of program *Cheers*. (LGW-NY)
- WEZE** MA **Boston** - In with ID as "Something positive for a change, WEZE 1260". (LGW-NY)
- WEZE** MA **Boston** - 3/21 1858 - Noted with syndicated religious program (Billy Graham?) then legal ID through deep fades. (IM-NY)
- 1270 **WTSN** NH **Dover** - 2/13 1605-1620 - In atop with financial talk show, unusual here so early. (TF-CT)
- WTJZ** VA **Newport News** - 3/17 2100-2147 - Black gospel songs and music until 2118. Then male announcer with several "AM 1270 WTJZ" IDs, then 5 or 6 commercials. Female announcer with "Back to more great gospel music on AM 1270 WTJZ" at 2125. Very strong at times. New here. (JB-MA)
- CJTN** ON **Trenton** - 3/12 2215 - Sort of a mess here but got a couple of clear CJTN promo IDs, one by a man and the other by a woman. Then into songs at 2220. New here. (JB-MA)
- 1290 **WJBR** DE **Wilmington** - 2/13 1702 - In loud with rock music, ID for "Mix 99.5". 2/21 heard with rock music, promo for "Operation Snowflake". (TF-CT)
- WRCP** RI **Providence** - 3/8 2045-2105 - Ethnic music, legal ID in English at 2100, "WRCP, Radio Club Portuguese" per NRC logbook. (JEK-MD)
- 1320 **WQIK** FL **Jacksonville** - 3/11 1828 - In and out with Channel 4 news, *Channel 4 Newsbreaker Hotline* (346-4444) promo then "Eyewitness news from the one and only W(VS?)T...on AM 1320, WQIK". (EU-NY)
- 1340 **WALL** NY **Middletown** - 2/15 1711 - In for a moment in WNHC null, with ID for "AM 1340, WALL", gone. (TF-CT)
- 1350 **WHWH** NJ **Princeton** - 3/7 1754 - In WNLC null, PSA's and *Moneytalk* call in show. (TF-CT)
- 1360 **WIXZ** PA **McKeesport** - 2/20 1729 High school basketball, interview with Pittsburgh Post Gazette columnist, weak signal. (TF-CT)
- WHBG** VA **Bridgewater** - 3/23 2200 - Nicely atop with oldie, ID "stereo AM" into Unistar news, no WDRC. Don't sound like 25 watts! (DS-DE)
- 1380 **WCQL** NH **Portsmouth** - 3/16 2000 - Various commercials and "WCQL Portsmouth" ID over/under UNID *Boston Celtics Radio Network* station. New here. (JB-MA)
- WNRI** RI **Woonsocket** - 2/15 1640 Telephone talk, commercial for a Chinese restaurant, a good bet for those of you who need Rhode Island! (TF-CT)
- WIZO** TN **Franklin** - 3/8 2207 - End of local high school basketball game and wrap up, immediately back to the studio where the announcer signed off the station. (Staff paid by the minute?) (JEK-MD)
- 1410 **WDOV** DE **Dover** - 2/15 1729 - Talk, ID for "WDOV, Newsradio 1410, we are WDOV, Dover, Delaware", into news, over WPOP. (TF-CT)
- WLSH** PA **Lansford** - 3/7 1758 - Cat Stevens' *Moonshadow*, "The tradition continues on AM 1410, WLSH, Lansford", followed by USA news. (TF-CT)
- 1420 **WLNA** NY **Peekskill** - 3/22 1825 - Broke through loudly with "Tune in right here to 1420 WLNA for all your local news and weather" into contemporary EZL. (EU-NY)
- WMYN** NC **Mayodan** - 3/22 1820 - In weakly with "1420 WMYN, brought to you by Vaughn's(?) Cars Limited...". (EU-NY)
- 1440 **WAJR** WV **Morgantown** - 3/17 1900 - "Mountaineer Basketball Network", fair, "Full service WAJR Morgantown". (ES-NJ)

- WZYX TN Cowan - 3/26 1858 - "WZYX 1440 on your dial right here in Cowan, Winchester and Decherd," poor, mucho interferencia. (ES-NJ)
- 1460 WIFI NJ Florence - 3/13 2240 - Surfaced briefly with calls but nothing else discernible. A close-by former unheard. (EU-NY)
- 1470 WJDY MD Salisbury - 3/17 1658 - With sign off announcement, fair in the muck. (ES-NJ)
- WTTR MD Westminster - 3/16 2045-2100 - Poor to fair playing disco tunes, first time heard. (BG-DC)
- WTZE VA Tazewell - 3/26 1815 - Ads into 1829:30 sign off announcement, "Inviting you to join us now on WTZE-FM 100.1 MHz". (ES-NJ)
- 1510 WSSH MA Boston - 3/24 1830 - Weather and "Radio Continental" slogan. (ES-NJ)
- 1530 WRTP NC Chapel Hill - 3/10 1830 - Weak with sign off. Could only pull "WRTP Chapel Hill...completing another broadcast day". (EU-NY)
- WBCW PA Jeanette - 3/10 1818 - Weak under WCKY with sign off giving address as in log, no SSB. PA #50. (EU-NY)
- 1550 WTTC PA Towanda - 3/10 1813-1815 - Weak with jock Eric McComb, Penn State basketball promo and sign off with address as in log, and mention of FM-95.3. (EU-NY)
- WTTC PA Towanda - 3/13 1815 - With ads to 18:20:15 sign off announcement. 500 watts. My 41st reception on 1550 from 21 states and 3 countries. (ES-NJ)
- WBSC SC Bennettsville - 3/20 1919 - In with booming signal and program *Gospel Soul Time* amidst usual crowded frequency. (LGW-NY)
- WKBA VA Vinton - 3/24 1832 - Loud but quick with possible sign off statement "...thousand watt clear channel WKBA. Southwest Virginia's gospel powerhouse". Then into short REL song and gone. QRM from WARD/CBE. (BG-DC)
- 1590 WALG GA Albany - 3/21 1728 - Up briefly over host of others with ID into CW music. fair. (IM-NY)
- WWCC PA Honesdale - 2/15 1658 - Country music, "1590 WWCC Honesdale" into USA Radio news, good signal. (TF-CT)

### OTHER STUFF

- 1620 RFM NY - 3/14 0042 - This station ID was "RFM" and they gave a New York P.O. Box and town (which I didn't get) with zip code 14777. Music was also played. (JB-MA)

### REPORTERS

#### BITS AND PIECES

Sorry for the lack of column the past couple of weeks - I had a switch in jobs, a busy couple of weeks at school, and our two-week Student Senate elections. I decided to try something no student media group at USC had ever tried before - predicting winners through exit polling. We must have done a good job - we picked all 16 of the winners.

We have loggings from several new reporters this time; welcome to RON BAILEY in North Carolina (Thx for the QSL card), JEFFERSON LEWIS in Kansas City, BOB GILFERT in Washington, DC WALT BREVILLE from St. Louis, and BRENT ALLEN up in Merced, CA. Welcome to you all.

Remember, WAYNE HEINEN wants your help to make the 1994 NRC AM Log the most accurate ever! Send information about any station changes to him at: 4131 S. Andes Way, Aurora, CO 80013, or call prepaid to (303) 699-6335.

There has been some recent confusion regarding my address - the 2618 S. Ellendale #3, LA 90007 which appears above is correct. It appeared once in the column header in January, was changed back to the old address for three issues, and then was changed again to the current address. Sorry about this!

My e-mail account wasn't shut down as I expected; you can send loggings to: dshaw@scf.usc.edu. Phone tips welcome 1700-2130 ELT at (213) 740-1487. Deadlines for the summer: May 15, June 12, July 10, August 7, and September 4. On to LOTS of DX...

#### SPECIAL!!!

- 1020 KASR OK PERRY - 3/23 noted w/C&W music, "Star Country" slogan and "AM 10-20 KASP" IDs. SILENT STATION BACK ON THE AIR, ex-KRAD (BW-OK)
- 1300 WNQM TN NASHVILLE - 4/4 OFF THE AIR DUE TO FIRE. Fire also destroyed co-located WWCR shortwave. News report quotes management as expecting AM back on later in the week, though SW may be off several months. Nothing regular on open 1300 except touch lamps and WSM's 2nd harmonic, but WCBL-1290 and WDOO-1310 now day regulars. (DS-TN)
- 1320 KSIV MO CLAYTON - Sked is NSP, per station (EB-MO)
- 1340 (KDEN) CO DENVER - Local stn silent for over a week, first noted 3/22. Tried calling stn, but got recorded msg that "number has been temporarily disconnected". No idea what the problem is, but hoe it's permanent! (OW-CO)
- 1360 KHNC CO JOHNSTOWN - 2/14 hrd testing w/ instrumental music 1815-1830 sign-off. Started reg sked on 2/15 with all talk format. Uses USA news and Sun Talk. Slogan "On the right side of your dial" referring to very right wing talk format. (WH-CO-1)
- 1470 KITO OK VINITA - 3/23 ex-KVIN noted w/C&W music (BW-OK)
- 1510 KJLA MO INDEPENDENCE - 4/1 Back on the air today after testing for a number of days. Station is now NOS off statellite, D-2 with lobes NNE and SSW; fairly broad and SNN for news. Previous operators on 1510 were REL and UC, and duped an FM for a while. (JL-MO)

#### THE BIG STORM BROADCASTS

- 720 WGR NC PISGAH FOREST - 3/13 2016 good-xlnt, with storm shelter locations in Transylvania Co. and other area locations. (DS-TN)
- 850 WRUF FL GAINESVILLE - 3/13 2027 good w/Talknet, Gainesville-area safety info & informational ad for insurance company w/local info. (DS-TN)
- 1480 WAJA NC FRANKLIN - 3/13 1956 fair to good w/brief legal ID in storm info. (DS-TN)

#### DX & EQUIPMENT TESTS

- 550 WDEV VT WATERBURY - 2/22 0400-0500 tried but not heard, needed for new state. Wiped out by WKRC ("WLW"), KUSA, KTSA, and unID SS. (TB-TN)
- 600 WMT IA CEDAR RAPIDS - 1/31 0100-0200 Not heard (DT-JA)
- 640 WWJZ NJ MT. HOLLY - 0000-0110 Code ID's hrd @ 0011, call repeated several times plus QTH, nothing else noted first half hour. Very heavy WSM slop (couldn't have you just shut WSM off, hi? -djs) + WCRV + Cubano con mas potencia! Needed for state #36. (TB-TN)
- +Fair on peaks w/ code and voice IDs, and organ music. (SF-TN)
- +Not heard, just WWLS with SEN Sports talk, WOI with BBC World Service, and KFI with *The Best of Rush Limbaugh* (EB-MO)
- 740 WVCH PA CHESTER - 3/8 Thought this was going to be a no-show; vigilant search 0230 to 0245, then temporarily gave up. Tried again @ 0325 and heard continuous code ID's "WVCH ON 740 KHZ WVCH". No voice ID's or music heard but there was an odd flip-flop dual tone that sounded like a European police siren. Almost inaudible under KRMG, CBL apparently on with open carrier. (TB-TN)
- 790 WLKW RI PROVIDENCE - 3/29 0004-0006 copied only morse code portion of test for 2 or 3 minutes through WTAR, WMRZ, and WMC interference. "TEST (3 times) DE WLKW (5 times)" at about 8 words per minute. (RB-NC)
- 830 KBOA MO KENNETT - 2/22 0100-0200 Xlnt signal during entire test. Voice & code ID's and march music all clearly audible. Generally over WCCO. Some mix of groundwave and skywave

produced phasing distortion. Not needed as KBOA is a sunset regular and can generally be heard daytime via groundwave. (TB-TN)

**WKTJ OH** Fair under WCCO and t-storm static w/ march music. (SF-TN)  
**CORTLAND** - 0057-0130 Heard amazingly well in WCCO null! Pre test voice ID's and tone osc sweep @ 0057. Test started at 0100 with voice ID and annct "This is an equipment test transmission" then code IDs sent at four different tones then march music and lots more voice & code IDs. New - total now 531. (TB-TN)

+Fair to good under WCCO w/ march music, code IDs, and voice IDs by Jerry Starr. (SF-TN)

**960 KGWA OK** **ENID** - 0300-0400 Tried, not heard. NRC night pattern book put me at extreme edge of pattern, but I thought at least the code IDs would make it... not so. Wonder if this was a bust? (TB-TN)

**990 WERK IN** Faint Code IDs heard under KZIM/WFIR. 960 #35. (SF-TN)  
**MUNCIE** - 3/13 0400. DX test tried, not hrd. Local KRKS about 90% null'd, but still no luck. (OW-CO)

+Not heard. (SF-TN)

**1070 WANM FL** **TALLAHASSEE** - 2/6 0000-0040 good over/under WIBC with voice and code IDs. (SF-TN)

**1090 KTNS CA** **OAKHURST** - 3/9 0300-0400 Not heard, XEPRS much too dominant here even though KTNS xmitter is just 44 air miles from me. A daytime regular, though. Sorry Larry, I gave it a good shot. Phone number in log is recorded info, correct number is (209) 863-5488. Also see KBOZ in 16-24 below. (BWA-CA)

+Tried, not hrd, in spite of a pretty good null on local KYBG (how come DX tests are always scheduled on freqs where I have locals, hi?) (OW-CO)

+Tried, not heard. Was I really dumb enough to stay up for this one? After all, a 500 watter... 1500 miles away... under powerhouse KAA? Well, stranger things have happened, but not this time. Heck, even KNX wasn't readable! (TB-TN)

**MUSKEGON** - 2/5 0400-0430 rough under KAA with C&W and code IDs between each tune. (SF-TN)

**1110 WNNW NH** **SALEM** - 2/15 0300 Not heard; KRLA stayed on. (MS-CA)

**1180 KOFI MT** **KALISPELL** - 2/1 0400-0500 Tried but not heard, needed for new state. JD Stephens said he called KOFI during test and learned that they were NOT omni-directional (TB-TN)

**1280 KVOX MN** **MOOREHEAD** - 2/13 0300-0310 not heard. (SF-TN)

**1310 KAAM TX** **DALLAS** - 2/8 0245 Test logged with piercing code ID's noted at 0245, 0256, 0257, etc. Code seemed to vary in pitch. New for me. (Never heard as WRR) (MS-CA)

+Dominant on day rig during reg sked with NOS. (SF-TN)

**1480 XLEE IA** **OTTUMWA** - 2/7 0100-0200 Very faint code heard from 0105 until 0135 under two unIDs. (DT-JA)

+Only one Voice ID made it, but code IDs and TT easily heard o/u WABB. IA #30. (SF-TN)

**1530 KPCR MO** **BOWLING GREEN** - 3/8 0100-0300 Between every C&W tune; code ID, voice ID, code ID. Should have been easy but looped directly at WCKY from here. (RS-MO)

+Code ID heard at 0101 followed by voice annct regarding test, TC @ 0102 then song "Davey Crockett" (haven't heard that one in ages!) Later, Scott Joplin piano ditties and several code and voice IDs at 0200. Poor to fair in WCKY null (well, sort of a null... WCKY is almost impossible to get rid of!) (TB-TN)

**1540 WSMI IL** **LITCHFIELD** - 0100-0110 Only Code ID's heard, poor under KXEL and CHIN. (TB-TN)

+Morse code at 0100 and tone every few minutes, no voice heard, heavy interference from ZNS-1, Nassau. (DT-JA)

**1590 WWCC PA** **HONESDALE** - 2/13 0015-0030 nonstop code IDs, poor-fair in pileup; nothing heard earlier. (SF-TN)

#### unID'S AND unID HELP

**600 WCAO MD** **MARYLAND** - 1/31 0100-0200 This is (MH-NC)'s unID under WMT DX test in v6on18 (2/22/93) that ID's as "Heaven's station". (BG-DC)

**1010 unID** 2/17 0532-0554 Ranchero type music, no annct, could this be KLAT? (See 1010 KBIS in 00-08) (DT-JA)

#### TIS AND THE LIKE

**530 TIS NC** Dept. of Motor Vehicles with 24 hour per day brief description of NC driving regulations. Located near rest area on Route 85 an NC-SC state line. (Do these things have call signs? I didn't listen on the hour). (RB-NC) (Yes,

most of these do have call signs. This one is not listed in the NRC log. -djs)

**WEXY CA** **ALTAMONT PASS** - 3/12 1503-1426 CA Dept. of Transportation. Info on wind power generation from windmills atop pass. Additional message from Gov. Pete Wilson "Welcome to Altamont Pass..." 84 air miles from here. Weak but steady, heard again 3/16. (BWA-CA)

#### WVNE 760 AM

70 JAMES STREET, SUITE 140  
 WORCESTER, MA 01603

#### 0000 - 0800 ELT

**550 WAYR FL** **ORANGE PARK** - 2/19 0125 fair to poor with KTSA while KUSA was off for maintenance with instrumental REL music, call letters at 0130. (EB-MO)

**560 KLZ CO** **DENVER** - 3/19 0017 in jumble w/YL talk, "56-KLZ" ID, mixing w/KWTO (BW-OK)

**570 WWNC NC** **ASHEVILLE** - 3/21 0017 Call ID popped up after C&W music, then faded and gone (BW-OK)

**590 WOW NE** **OMAHA** - 2/27 0145 good with fair \$ with Radio Reloj while tearing up local KEZK with Solid Gold Country, AM/FM IDs, "This is WOW-AM and -FM Omaha" legal ID at 0200 into ABD-I news (EB-MO)

**640 KFI CA** **LOS ANGELES** - 2/26 0200 fair over WWLS with local KXOK-630 splash with legal ID and local news (EB-MO)

**710 WOR NY** **NEW YORK** - 2/28 0227 good o/u WHB with NOS, mention of "Joe Franklin's Memory Lane", "WOR New York" legal ID at 0235, ad for Retirement Resources, trivia questions (EB-MO)

**720 KDWN NV** **LAS VEGAS** - 2/28 0305 poor with Jamaica/CHTN with WGN off with tail end of AP news into what sounded like a casino remote (EB-MO)

**CHTN PEI** **CHARLOTTETOWN** - 2/28 0310 weak with KDWN/Jamaica with WGN off with "Oldies Coast-to-Coast on 720 CHTN" ID, into "Beginnings" by Chicago (EB-MO)

**730 WPAL SC** **CHARLESTON** - 2/14 0442-0445 UC, ad for Charleston Blues Festival, poor under XEX and unID, gone at 0445 during rap number. (DT-JA)

**740 WMBL NC** **MOOREHEAD CITY** - 3/25 0313 "From Moorehead City we're WMBL" dominating on east beverage from Shelby. New from here, but logged in NJ in 1954! (RB-NC)

**KTRH TX** **HOUSTON** - 3/25 0400 Equal to KRMG but used passband tuning and notch filter to copy several IDs and "News Radio 740, KTRH". Then female voice with (I believe) a traffic report at 3 am?! (RB-NC)

**860 WGUL FL** **DUNEDIN** - 1/25 0118-0130 promo for pgm of bird songs (!) on "WGUL AM and FM", NOS, Louis Armstrong, fair (DT-JA)

**900 KBIF CA** **FRESNO** - 2/15 0345 Trading off w/XEW. Sports Entertainment Network ID. Hooked on Phonics spot. (MS-CA)

**1010 KBIS AR** **LITTLE ROCK** - 2/17 0545-0601 sports talk, Nx at 0559, ID as "Radio Biz", poor under possible KLAT, and unID Cuban. (DT-JA)

**1040 WYFX FL** **BOYNTON BEACH** - 2/18 0510-0545 soul, GOS, REL, ID as "25,000 watt giant WYFX", good, some interference from unID. (DT-JA)

**1130 WWBF FL** **BARTOW** - 1/29 0605-0616 Sign on ? "America"; woman annct, faded with daylight. (DT-JA)

**1140 KCMJ CA** **PALM SPRINGS** - 2/15 0306 Through KLUC w/ID: "Country's greatest hits, 1140 KCMJ". (MS-CA)

**1210 KGYN OK** **GYMNON** - 2/18 0203 good to fair with WOGL with OK Network News, into IRN (EB-MO)

**1310 KXAM AZ** **MESA** - 2/8 0200 ID: "At 1310 this is KXAM Scottsdale-Phoenix". (MS-CA)

**KIVA NM** **ALBUQUERQUE** - 2/8 0211 New catch for me - formerly KZRQ. ID: "1310 KIVA-AM". Spot for Army National Guard. Music from West Side Story at 0238. (MS-CA)

**1320 WJAS PA** **PITTSBURG** - 2/13 0213 good to poor over KELO in KSIV null with "We're AM 1320 WJAS" ID into Unistar's AM Only NOS/AC feed //WRTH-1430 (EB-MO)

**1330 KFH KS** **WICHITA** - 2/13 0153 good to fair \$ over WFBC/KWLO/KVOL with oldies, "The Oldies Station AM 1330 KFH" ID, CBS News at 0200, local wx at 0205 (EB-MO)

**1480 WZJY SC** **MOUNT PLEASANT** - 2/6 0600-0610 Sign on, News, o/u WABB; poor, fading out by 0605 in jumble of stations. (DT-JA)

**1590 KYOK TX** **HOUSTON** - 1/22 0341-0420 UC "Live 98.5" ad for rock concert, poor, fade in and out, some interference from unID with talk show. (DT-JA)

**WERK**  
 Oldies 105 FM

8510 South State Road 3  
 Murcine, IN 47302

**0800 - 1600 ELT**  
 830 KPLS CA ORANGE - 2/14 1230 Back on the air after brief silence. Now has "Radio Aahs" format, ex SS. Children's songs from movie "Alladin". Phone number: 1-800-552-2470. Dual ID //KCTQ-850 at top of the hour. (MS-CA)  
 1230 WHOP KY HOPKINSVILLE - 4/5 1024 fair with Kentucky-wide call-in show. Dunno why I haven't tried for this one before, it should be a regular. (DS-TN)  
 1250 WNVL KY NICHOLASVILLE - 4/5 1030 weak with what sounded like NOS music and a couple of WNVL call IDs. I think a CNN Headline News station was mixing but could have been a spur from local WKDA-1240. (DS-TN)  
 1600 KWMX CO LAKEWOOD - 3/10 1400 "KWMX FM and AM, the new Mix 107.5". Same format, just a call to match the "Mix" slogan, ex-KRXY. (WH-CO-2)

**1600 - 2400 ELT**  
 620 WTRP GA LA GRANGE - 1/29 1805-1818 "On news-talk radio WTRP", sports talk with man using lots of "foul" language, o/u  
 710 WHB MO KANSAS CITY - 2/26 1730 local-like signal with very good \$ with "Oldies 71, playing the best of the '50s and '60s on AM 71 WHB" into oldies, celebrity talk at 1640, wx, ad for KSHB-TV Fox 41, into traffic report. One of the few AM oldies stations left in Missouri. (EB-MO)  
 770 WWCN FL NORTH FORT MYERS - 2/14 1846-1900 CNN Headline News, 1900 ID as "770 WWCN", poor, int. unID Cuban (DT-JA)  
 870 KOWA NV LAUGHLIN - 2/9 2300 Incredible signal right through local KIEV. Several classic C&W tunes. IDs as "The Cow". Spot for Leonard's Automotive at 2321. Ex-KROL for me. (MS-CA)  
 WWL LA NEW ORLEANS - 3/14 2150-2202 In with the Road Gang. Haven't heard here in 8 years. My favourite DX catch of the 70's (and of the 90's? -djs). Very weak under pest KIEV and occasional battle with KOWA (BWA-CA)  
 1040 WYFX FL BOYNTON BEACH - 3/13 2048 fair over looped WHO with ad for A Real New York Bargain clothing store at Okeechobee & Military in West Palm; two Sears ads; into Light UC music (DS-TN)  
 WMTX FL PINELLAS PARK - 3/31 1913 fair with Tampa concert annct & AC format //-FM (DS-TN)  
 1060 WAMT FL TITUSVILLE - 2/18 2208 OLD, ROK, ad 631-TIME for time and wx, ad for Rec. Center in Titusville, fair o/u unID ss. (DT-JA)  
 1070 WHY2 SC SAN SOUCI - 2/18 2236 call 924-???? for requests, "You are just a phone call away on WHY2", UC, fair, light int. unID SS (DT-JA)  
 1090 KBOZ MT BOZEMAN - 3/9 0324-0406 in with C&W music, local ads & IDs. First time in. Found trying for KTNS test. Way under XEPRS but call audible in touchy null. (BWA-CA)  
 1100 KKLL MO WEBB CITY - 3/1 1902 Sign off noted. (WB-MO)  
 1110 WMBI IL CHICAGO - 3/1 1900 Sign off noted. (WB-MO)  
 1140 KPWB MO PIEDMONT - 3/2 1914 caught ID "No nicer country than KPWB AM 1140" just above the mess. (WB-MO)  
 1150 WAYY WI CHIPPEWA FALLS - 3/8 1917 caught clear ID above the mess, then in noise again. (WB-MO)  
 1190 KFEZ MO KANSAS CITY - 2/14 1600 fair to poor with WOWO with "This is KFEZ Kansas City, Missouri" legal ID into AP Network News, weather forecast at 1605 (EB-MO)  
 KUII TX DALLAS - 3/31 1909 good with Dallas/Ft. Worth traffic. (DS-TN)  
 1200 KYOO MO BOLIVAR - 3/2 1906 caught ID: "The Ozark's very own, KYOO, plays your favorite music." Briefly over WOAI. (WB-MO)  
 1220 WSLM IN SALEM - 3/13 2108 fair with high school basketball, legal ID, ads for Countryside Insurance and Sander's Pharmacy. (I'd swear announcer said Bob's Pharmacy the first time!) (DS-TN)  
 1290 WCBL KY BENTON - 4/4 1741 fair, day regular with WNQM-1300 off. "WCBL Sports". (DS-TN)  
 WBZT FL WEST PALM BEACH - 2/22 2006-2030 Bruce Williams on Talknet, local ad for A.P. Edwards in Lucerne, Lake Wales, and Pompano Beach, ID as "AM 1290 WBZT", fair, light int. from unID SS (DT-JA)  
 1300 WKXM AL TALAHASSEE - 4/4 1930 fair with satellite country and frequent "1300 WKXM" IDs. (DS-TN)  
 WFFG FL MARATHON - 2/22 2033-2051 C&W, local ad for restaurant, 2044 ID as "AM 1300 WFFG", fair over unID SS (DT-JA)  
 1310 WDOD TN CHATTANOOGA - 4/4 1824 weak, mixing with unID. Daytime regular with WNQM-1300 off. (DS-TN)

WGH VA NEWPORT NEWS - 2/23 1910-1830 sports how, clip of p-b-p basketball, ID as "Sports Radio 1310 WGH", poor o/u unID. (DT-JA)  
 WAGF AL DOTHAM - 2/24 2043-2058 talk, music, ID 2045 "...WAGF", poor under unID Cuban (DT-JA)  
 1340 KCQL NM AZTEC - 3/22 2011 Local ads, "Kool Kalendar", then oldies on "Kool 13-40". 2100 ID as "KCQL Aztec-Farmington". Call change, ex-KCEM. (OW-CO)  
 KKIT NM TAOS - 3/22 2114 Indian chanting to about 2145, then long fade; ID 2200, then AI nx, public affairs type shows. New, NM #56, thanks to local KDEN being off. (OW-CO)  
 1370 KGEN CA TULARE - 2/7 2140 Finally logged thanks to KEEN's demise. SID: "KGEN Radio Tulare" heard in EE - followed by songs in SS. Some QRM from KWRM, KSOP, KPCO. (MS-CA)  
 KXTL MT BUTTE - 3/14 2258-2310 good w/OLD and local ads. In and out most of the night - another 1370 since KEEN is gone. (BWA-CA)  
 1450 KSEL NM PORTALES - 3/12 2045 Fair in QRM w/p-b-p of state class A bkb tourney; YL w/sx scores at halftime; "Sports R. KSEL". Haven't hrd since '90. (OW-CO)  
 1520 WKVQ GA EASTONTON - 2/10 1843-1845 C&W, ID as "1520 WKVQ", poor int. from unID SS (DT-JA)  
 1540 WSMI IL LITCHFIELD - 2/26 1640 very good with C&W, local PSAs, farm report promo, weak on second harmonic (3080 kHz), calls stand for We Serve Mid-Illinois (EB-MO)  
 1550 WTYR TN SODDY-DAISY - 3/12 1925 heard briefly above mess "WTYR, all oldies." (WB-MO)

# International DX Digest

*Foreign DX Catches. Times are UTC; for ELT, subtract 5 hrs.*

As promised last week, I am providing a list of some of my more interesting loggings from my recent stay in the Dominican Republic. The season seems to be closing down, but Eliot Straus hit a rich vein of DX at the beginning of March. And where is Mark Connelly? He's right here in IDXD, of course!

## TRANS-PACIFIC DX

- 540 WESTERN SAMOA 2AP, Apia, 2/24 0530 - Along with the outlet on 747, the first TPs to show up at this time and subsequent evenings with "island music" and non-English chatter. [RHM\*HI]
- 738 FRENCH POLYNESIA Papeete, Tahiti, 2/26 0545 - With "island music", unID language (probably French). Not heard regularly or strongly. [RHM\*HI]
- 747 WESTERN SAMOA 2AP, Apia, 2/24 0710 - First to show up in the eveing; first noted with "R. Australia" news. 2/25 0558 - Weather warning and program summary. A regular visitor, in English, first noticed when listening on 750 before switching to 9 kHz setting on the SW-1. [RHM\*HI]
- 1017 TONGA Nuku'alofa, 2/28 0728 - With Radio Australia news, 0749 weather mentioning Nuku'alofa, so clearly Tonga, although no ID heard, poor signal. [RHM\*HI]
- 1570 HAWAII KUAU, Kaiku - Not heard. Is this an active CP? 1992 WRTH lists this as Kaihua-Kona; wonder if Kailua-Kona was the intent? [RHM\*HI]

Roy speaks: "I wish I could hear some of this exotic stuff here [Marysville, WA]! A bit surprised I didn't hear WVUV-648, but too much KHNR I guess; didn't have a log, but didn't notice any het on 650. I'm sure projected KBQN-585 wasn't on."

## TRANS-ATLANTIC DX

- 567t IRELAND 1/29 2232 - Classical violin or Irish fiddle music, in bad slop. [MC-MA]
- 738 SPAIN Barcelona, 3/4 0135 - RNE program, man and woman in Spanish with discussion, poor. [ES-NJ]
- 774 SPAIN synchros, 1/29 2227 - Loud with Spanish talk by two announcers. [MC-MA]

**Jim Renfrew**

61 Wilcox Street

Rochester, NY 14607-3832

- 837 CANARY ISLANDS/SPAIN 1/29 2225 - Man in Spanish. [MC-MA]
- 882 ENGLAND Washford, 1/29 0222 - English talk atop second station (probably Canaries); fair through WCBS slop. [MC-MA]
- 891 ALGERIA Algiers, 1/15 0120 - Arabic vocal, good. 1/29 2224 - Arabic vocal. 2/22 0247 - Loud with male Arabic vocal. [MC-MA]
- 1053 ENGLAND/MOROCCO 1/29 2215 - English talk over Arabic music. [MC-MA]
- 1089 ENGLAND 1/29 2205 - English discussion by man, to good peaks. [MC-MA]
- 1107 SPAIN 1/15 0131 - RNE5 synchros good with Spanish talk. [MC-MA]
- 1251 LIBYA Tripoli, 1/15 0144 - Arabic music in slop. [MC-MA]
- 1269 SPAIN/CANARY ISLANDS 1/15 0147 - Apparent Spanish talk, poor. [MC-MA]
- 1323 GERMANY 2/9 0505 - Man in German. [MC-MA]
- 1359 MELILLA/SPAIN 2/20 2254 - Man in Spanish. 3/7 0331 - Pop music, Spanish talk, loud! Second only to Algeria in strength tonight. [MC-MA] (Is Melilla wishful thinking, now that Spain is on with high power? - Jim)
- 1375 ST. PIERRE & MIQUELON 1/15 0148 - Excellent with mellow French vocal. [MC-MA]
- 1467 FRANCE Roumoules 1/29 2248 - Man talking, possibly German, heavily slopped. [MC-MA]
- 1521 SAUDI ARABIA 2/28 0611 - Man in Spanish, very good. SAH of approximately 3 Hz present. [MC-MA]
- 1544 NORTH AFRICAN CLANDESTINE 1/29 2243 - Arabic talk and emotional vocal music, fair to good. [MC-MA]
- 1566 UNID 1/29 2143 - Operatic female vocal, 3 Hz SAH, probably the usual Azores/Tunisia mix. [MC-MA]
- 1575 SPAIN 2/28 0614 - Bits of Spanish talk, poor. [MC-MA]
- 1584 SPAIN 1/29 2146 - Man in Spanish, poor to fair. 2/28 0605 - Man in Spanish, to good peaks. [MC-MA]

- 1593 GERMANY Langenberg, 1/15 0155 - Light pop music to fair peaks. 2/9 0508 - "My Brave Face" by Paul McCartney, then German talk. Loud, but very fluttery, clean copy only with synch. detector enabled. 2/21 0601 - News by woman in German, good. [MC-MA]

## PAN-AMERICAN DX

- 550 JAMAICA RJR Montego Bay, 3/7 0005 - Dominating frequency with English DJ, ads, reggae music, etc. [ES-NJ]
- 580 PUERTO RICO WKAQ San Juan, 3/7 0050 - "Radio Kah-Ah-Koo", "Radio Reloj", man speaking in Spanish. [ES-NJ]
- 595 DOMINICA DBS Hillsborough, 3/7 0110 - Man with Carib-accent, Carib vocals, fair. [ES-NJ]
- 629.4 DOMINICAN REPUBLIC R. Monte Cristi, Monte Cristi, 3/12 1344 - Noted on the low side. [JR\*DR]
- 590 ANGUILLA Caribbean Beacon, 3/7 0040 - Owned 690 with Dr. Gene Scott. [ES-NJ] (And when he's done he'll probably own every station in NJ too! - Jim)
- 750 VENEZUELA YVKS Caracas, 3/7 0120 - R. Rumbos (R. Caracas? - Jim) pushing S-50 on the R-390 almost equal in strength to WABC-770, unreal conditions! [ES-NJ]
- 780 COLOMBIA R. Almirante, Riohacha, 3/12 1041 - Sign-on noted at this time. [JR\*DR]
- 790 DOMINICAN REPUBLIC LV del Tropico, Santo Domingo, 3/12 1329 - Frequent power cuts during the period monitored. [JR\*DR]
- 790 BARBADOS VOB Road Town, 3/15 0256 - Noted in mess with music and "VOB" IDs. [JR\*DR]
- 810 COLOMBIA HJCY, CARACOL, Bogotá, 3/7 0015 - CARACOL ID, Man speaking in Spanish, fair. [ES-NJ]
- 850 PUERTO RICO "WKAQ" Aguadilla, 3/12 2121 - IDing this way and parallel to 580 San Juan. [JR\*DR]
- 880 DOMINICAN REPUBLIC R. Santa Cruz, Mao, 3/11 2142 - Definitely the best local music (Merengue and Plena) heard on any station. [JR\*DR]
- 900 CUBA R. Reloj, 3/14 0923 - Not sure if this was a sign-on or not. Reloj appeared mid-sentence, but kept breaking out and in. [JR\*DR]
- 970 U. S. VIRGIN ISLANDS WSTX, 3/15 0047 - Noted with island music and mentions of Virgin Islands. [JR\*DR]
- 980 UNID R. Noroeste, 3/12 1413 - Noted all day long, mostly with music, looping east and west, with this

slogan. I wonder if this is from the Monte Cristi area? César, have you heard this one? [JR\*DR]

- 1000 COLOMBIA HJAQ, Cartagena, 3/7 0025 - RCN ID, man speaking in Spanish, music, good, LAs dominating almost every frequency at this time. [ES-NJ]
- 1020 VENEZUELA YVRS La Asunción, 3/7 0100 - "Mundial" Margarita IDs, Spanish vocals, so strong I couldn't even loop KDKA! S-40 on R-390, WBZ was S-30. [ES-NJ]
- 1030 HAITI - Nothing from 4VEH noted here at all, about a hundred miles from Puerto Plata. In fact there's not even a listing shown for this in the 1993 WRTH. The Haitian station on 840 could not be monitored because of a Puerto Plata station on the same frequency. A 1030 R. Novedades, La Vega CP listed in the 1993 WRTH was also unheard. [JR\*DR]
- 1030 PUERTO RICO WOSO, San Juan, 3/14 2159 - CBS News, English ID as WOSO, "El Oso", then weather. [JR\*DR]
- 1080 HAITI R. Nationale du Haiti, Port-au-Prince, 3/11 1018 - religious services noted in the mornings, nothing noted in the evenings at all, only WTIC. [JR\*DR]
- 1090 DOMINICAN REPUBLIC R. Amistad, Santiago, 3/10 1259 - Just like R. Reloj, but instead of clock ticks, this one sounds more like water drips! [JR\*DR]
- 1100 DOMINICAN REPUBLIC R. Nagua, Nagua - Unheard, but their small concrete block building and adjacent antenna was observed along the main street in Nagua (an area that appears to be undergoing a lot of beachfront development). [JR\*DR]
- 1109.9 DOMINICAN REPUBLIC R. Marién, Dajabón, 3/12 2133 - Slightly low with many mentions of "La Frontera" (the border area between the DR and Haiti). [JR\*DR]
- 1128.6 VENEZUELA 1130 Musical, Barquisimeto, 3/15 0629 - Heard on the low side of Cartagena. [JR\*DR]
- 1160 BERMUDA VSB Hamilton, 3/15 0659 - Presumed with BBC World Service, no ID on the hour, loop bearing correct. [JR\*DR]
- 1239.0 DOMINICAN REPUBLIC R. Barahona, Barahona, 3/13 0159 - "R. Barahona el mas del sur", completely separable from local R. Revalación 1240 in Puerto Plata. [JR\*DR]
- 1260.3 COLOMBIA CARACOL 3/12 1140 - ID, but which of the three listed here? [JR\*DR]

- 1300 UNID 3/12 2221 - Series of accented English advertisements for various tourist attractions. Possibly R. 1300 Caracas which was heard shortly after this. [JR\*DR]
- 1320 USA WLQY Hollywood, 3/12 1159 - What I think was a Creole language program. The call letter ID cleared up the mystery! [JR\*DR]
- 1351.0 VENEZUELA R. Falcón, Puerto Cumarena, 3/12 2208 - Noted on the high side. [JR\*DR]
- 1369.5 COLOMBIA R. Piloto, Barranquilla, 3/12 0300 - "La Palabra" religious program on the low side of this frequency. [JR\*DR]
- 1370 PUERTO RICO Vieques Island, 3/12 2153 - "Guidelines" English religious program. I saw this station when I visited Vieques in 1981. [JR\*DR]
- 1371.1 DOMINICAN REPUBLIC RTVD, Barahona, 3/11 1052 - Noted in parallel with RTVD 1490 but way up on the high side. Site is presumed from WRTH list. I also heard some French language on 1370, but not IDable though the hets, perhaps Haiti? [JR\*DR]
- 1410.4 HAITI La Voix du Nordouest, Port-du-Paix, 3/14 1515 - ID heard through het as a man was speaking French/Creole. The only Haitian station heard during the day. [JR\*DR]
- 1430 VENEZUELA R. Bahia, Puerto La Cruz, 3/9 0515 - Noted on new frequency, as others have reported from Europe. [JR\*DR]
- 1490 VENEZUELA R. El Sol, Maracaibo, 3/11 0045 - Seems to run brokered "Radial Christiana" (or "RC") programs, although El Sol IDs were heard on the hour. [JR\*DR]
- 1500 VENEZUELA R. Dos Mil, Cumuná, 3/9 0537 - IDs and frequent "door bell" chimes. [JR\*DR]
- 1510 VENEZUELA Super Radio, 3/11 0032 - Many mentions of Venezuela, but not sure of the location. [JR\*DR]
- 1520 DOMINICAN REPUBLIC R. Samaná, Samaná - Did not hear this station, but I saw its building on a day trip: a small concrete block building with a 100 foot antenna next door. [JR\*DR]
- 1520.3 COLOMBIA R. Minuto, Barranquilla, 3/10 2341 - Noted on the high side of Puerto Rico's WRAL. [JR\*DR]
- 1530 BELIZE VOA, 3/12 0139 - Heard in English // 1580, 5995 and 7405. Weaker than 1580, although 1580 had more co-channel interference. [JR\*DR]

1570 DOMINICAN REPUBLIC R. Amanecer, Santo Domingo, 3/10 2330 - Now on this even frequency with religious programs. [JR\*DR]

1590 DOMINICAN REPUBLIC R. Hit Musical, Santiago - CP on this frequency not heard. [JR\*DR]

*Comments on Dominican loggings:* From March 8 - 15 I was vacationing in Puerto Plata, on the northern coast of the Dominican Republic. Circumstances allowed for intensive radio listening with my Sony ICF-2010 and Radio West Loop. I was fortunate that airport security in Toronto and Puerto Plata accepted my explanations about the loop at face value! As I logged about 250 medium wave stations from 25 countries, a simple bandscan would be rather tedious so I have some general findings, and some specific loggings that may be of interest.

A key goal was to log as many Dominican stations as possible. Using the 1993 WRTH I was able to log 63 of the 116 stations listed, almost all during the daylight. At night, I could generally hear only some of the stations in Santo Domingo and Santiago - the other Dominican locals were washed out by Colombia, Venezuela, Cuba and U.S. stations. At sunrise, Colombia, Cuba and U.S. were strongest. At sunset, Puerto Rico and Venezuela stations generally dominated. Other daylight receptions included Turks and Caicos, Puerto Rico, U.S. and British Virgin Islands, and Haiti.

I was interested in hearing stations from Haiti, but, as could be expected, only two (possibly three) were heard. Perhaps the others are off the air, or operating with restricted schedules and low power due to fuel shortages during the continuing political crisis.

I also noticed some of the Dominican stations off the air at odd times, presumably due to equipment problems. In Puerto Plata, for example, RTVD 1490 seemed to be off the air much of the time, RTVD 640 Santiago was missing one day, the R. Clarin 850 Santiago relay was only noted the day before I left, and I noted R. Puerto Plata 900 with a series of irregular breaks one evening. Something not easily appreciated by North Americans is the erratic nature of the power grid in many countries. On the last day of our stay the storm system that pulverized the east coast of North America with heavy winds and snow brought drenching rains to Puerto Plata and the power grid popped in and out all night and the next day.

Almost all of the English language splits were heard easily, including the Cayman Islands on 1205 and 1555 which are scheduled to go off the air in favor of FM this summer. It was a special pleasure to hear R.

Anguilla 1505 and Barbados 790 which I've never heard a hint of from the USA.

Major U. S. clear-channels were audible with a "flick of the loop" (KMOX the furthest west), but CBJ-1580 was the only Canadian heard. I heard quite a few U. S. day-timers as well.

Hets were heard up and down the dial, some strong, some weak, and I've listed all of those that I could identify. The decimal frequencies noted above are only approximate.

I also logged 38 FM stations, but nothing outside of the Dominican Republic other than a scatter reception of Miami's WMCU 89.7, 730 miles. Nothing heard from Turks and Caicos, Bahamas, Cuba or Puerto Rico as I'd hoped. My car radio is far better than the Sony, but it would have been impractical to bring my car along!

### QSL INFORMATION

BAHAMAS: ZLS 526 Non-Directional Beacon, Stella Maris, Long Island, Bahamas: full-data QSL card signed by Earl Zellner, Federal Aviation Administration, Caribbean Sector Field Office, P.O. Box 592057, Miami, FL 33159. [RP-IL]

ST. KITTS & NEVIS: VON 895 no data personal letter from Evered Herbert, Manager, and information about Nevis, received in 3 months for \$1 from VON Radio, P.O. Box 195, Bath Village, Charlestown, Nevis, West Indies. Nevis has its own stamps, although postmark is "St. Christopher and Nevis". The island was named by Columbus who imagined snow ("nieves") on the

island's mountain. "The station is owned by Nevis Broadcasting Company, Ltd. Construction began January 1988 and was ready for operation in June of 1988. Commercially operated, that is revenues are received from the sale of advertisements to the general public. The Directors welcome and encourage the Nevis-St. Kitts public in particular and the entire Caribbean at large to view and value the station as their own, not only to effectively promote sales, but as an avenue to learn, share, and ultimately grow." Format is "Adult Contemporary/Mostly Caribbean Music/Wide Variety of Programmes". From 6 AM to 10 PM daily (1000-0200 UTC). [JR-NY]

# FM DX

## Digest

DX on the FM band, from April through September

Mike Hawk, NØOSY

10212 P St.

Omaha, NE 68127-2130

Welcome to another season of FMDX! As the new editor, I hope to provide a column as fine as those done by Todd Brandenburg over the last few years.

I've had a few requests for information about the propagation on FM, so I'll give a very brief run down on what you can expect.

E-skip is probably the most exciting kind of FM DX. Unfortunately, it is fairly uncommon until a few days into May. It can last for a few minutes, to several hours. It is most common during the daytime, but many times lasts until after sunset. Signals heard via E-skip will most often be between 700-1400 miles. Look for E-skip to strike lower frequencies (28 MHz and VHF TV) first, increasing as it intensifies.

Another common type of FM DX is tropo (tropospheric ducting). This occurs when weather conditions in the troposphere are just right, forming ducts. These ducts actually carry signals for a few hundred miles, to 800+ miles! They are most likely to occur on warm and fairly humid days. Also, wind and rain impede tropo, since they "mix up" the atmosphere too much for inversion layers to form. Just after sunrise and after sunset are the best times for tropo.

By the way, all times below are local.

**Thomas J. Reiser**, 9506 South Winchester, Chicago, IL 60643-1109

Equipment: Sony ICF-2003 w/built-in antenna 3-8-93 tropo (ELT)

2229 99.1 WFMK MI East Lansing - very poor with a River Valley Conference Basketball promo for a game on 3/9; new

2239 101.5 WNSN IN South Bend - good with lite rock

2242 93.7 ?? MI Grand Rapids - very poor with WJTN and WKRT QRM. Country music and formerly WJFM. (Thomas, the new calls are WBCT, & they ID as B-93 - I picked them up last summer and they had me confused, too. - mnh)

2245 95.1 ?? WI Kenosha - poor with "95 Will Rock" slogan ID. Heavy metal rock; formerly WJZQ. (The calls are now WJIL - mnh)

**Eric Bueneman (NØUJH)**, 631 Coachway Lane, Hazelwood, MO 63042-1347

Equipment: Realistic STA-90 AM/FM/FM receiver, Archer Deluxe indoor FM antenna, Archer FM amplifier

Most of what I got are format changes, so here goes a whole winter's worth: (Times are CLT)

89.5 KCFV MO Ferguson- Alternative rock except for Heavy Metal Sat. 2000 - 2400,

Reggae Sun. 0800-1200, Dance/Techno Sun. 1200-1600, Rap Sundays 1600-2000, obscure classic rock 2000-2400.

91.5 KSLH MO St. Louis - now traditional Jazz, "Jazz 91.5", hours 0600-2400.

94.1 KPCR MO Bowling Green - Now here (ex. 100.9), still CWM //KPCR-1530

95.5 WFUN IL Bethalto - returned 9/1/92 with pre-teen programming, ex-WXJO, IDs as "Fun Radio 95.5, WFUN"

97.1 KXOK MO Florissant - classic soul //KXOK-630, "Mix 97.1 KXOK" since 11/11/92 ex-KHTK, dance/CHR

99.5 WKDQ KY Henderson - now Hot CWM, ex-AC/oldies. Was a top CHR station in the mid '80's!

100.3 KATZ IL Alton - Now contemporary jazz, "Jazz 100"

101.1 WEXB IL East St. Louis - Adult AOR (a.k.a. "Mellow Rock"), "The Fox"

104.5 KSLQ MO Washington - NOS/OLD //KSLQ-1350, hours are 0600-1800 on AM, 0600-2400 on FM

104.5 WFMB IL Springfield - CWM //WFMB one 1450, "B Country"

105.7 KPMT MO Ste. Genevieve - Alternative rock, "105.7 The Point". Ex-KFXB, adult AOR and //WFMB-101.1

106.9 KFPA MO Jefferson City - Now light AC, "The Soft Rock Café", ex-KTXV, AC/CHR

**Gary Houdek**, RR 1 Box 16, Munden, KS 66959

92.7 KILS KS Minneapolis - On the air with 50 kw and country music. Address is 1112 Albert, Salina, KS 67401

102.5 KBLS KS North Fort Riley - On the air with 100,000 watts playing middle of the road music. I can hear the station and I don't know why they use North Fort Riley when there is no such town. Address is Box 69, Abilene, KS 67410

103.9 KOLA KS Ogden - Is on 103.9. My FM Atlas says it is on 103.5. Power is 3000 watts. [In the latest edition of the FM Atlas (14th), KOLA was accidentally placed in the 103.1 section. It seems they have been planning to move to 103.5 for a few years, but haven't yet, and might not at all. - mnh]

**Mike Hawk** - Equipment: Kenwood KT-815 tuner with mod. IF and 10 element yagi up 30'.

101.9 KYNN NE Lincoln - "Omaha's Young Country". Moved studios to Omaha. Ex. KFMO.

103.7 KXKT IA Atlantic - now country and ID's as KT-103; ex. "The Cat"

Not much DX here besides a few 400 mile tropo openings. Not a bad turn-out for the first issue of the year! Keep it up! 73

## GE Superadio Offers High Quality AM

Radio World, March 24, 1993 via Bruce Conti

The following is an excerpt from a review of the GE Superadio III by John Gatski in Radio World, March 24, 1993. Considering the initial comments that have appeared in DX News, I thought this might be of interest to those who were the first to purchase III's, because some defective units have escaped from the factory. Read on!

### Technical Difficulties

A few early models of the Superadio III, made in mid-to-late 1992, were shipped from the factory with severe sensitivity problems. The factory did not catch all bad ones before they got into the distribution channels.

According to Thomson, Hong Kong manufacturer of the GE unit, would-be buyers can look at the four digit date code (not the serial number) on the box or in the battery compartment to see if the product is a potentially defective unit. Check the second, third, and fourth numbers, which represent the year and fiscal week it was manufactured. The first number represents the day of the week and is not important in identifying a bad radio.

If the second number is "two", then it was built in 1992, which means it could be defective. Don't worry about the radio when the second digit is three. Next, look at the last two numbers. If they are "42" or higher, the unit does not have the sensitivity problem. Those with "41" or earlier fiscal week codes should be auditioned before purchasing. Chances are, however, that most units built before the 42nd week are good, Thomson said.

## Are you expiring?

We hope not! To avoid expiration, mail your remittance to the *DX News* Membership Center early. Allow at least three weeks after mailing your check or money order for new renewal data to appear on your mailing label. Please provide full nine-digit ZIP numbers, too.

From NRC's DX Audio Service ...

## 'After Dark 3'

Four C-90 tapes in a holder now available for only \$9.50 postpaid. Listen to interviews with Jonathan Marks, Bruce Elving, and with Fred Vobbe answering your questions ... and features including profiles of WOJD-FM, the Kids format, and Pete Kemp's "Radio Roundup" ... and more! "After Dark #2" is also still available at the same price. Order from NRC Publications - Box 164 - Mannsville, NY 13661. NY orders, please add sales tax.

### Radio World Listening Test

During listening tests, some local area stations were sampled, finally choosing WMZQ, an AM stereo country music station with a strong signal. As Radio World (and DX News) readers know, a lot of markets don't have an abundance of music-formatted AMs.

The audible difference in switching from normal to wideband mode with the Superadio III was immediate, with good results. With a strong station such as WMZQ, the radio sounded great. In a very crowded section of the band, however, the wideband mode produced more noise, but could be eliminated or minimized by selecting the normal position. In listening to nighttime skywave signals in wideband, the noise increased as the band became more crowded. The normal mode, however, brought in numerous listenable stations.

Others who tried out the radio agreed that its performance was very good. "It does an excellent job of tuning DX stations," said John Marino NAB Manager for technical regulatory affairs, who sampled the Superadio III for a week.

The FM tuning performance was very good, too, with some stations benefiting from the AFC switched in and others sounding better with it off. On strong-signal classical and jazz stations, there was little background noise that sometimes is unavoidable in the FM stereo mode.

According to GE, the Superadio III's "guaranteed" frequency response extremes meet the AMAX standard of 60 Hz - 7500 Hz in the wide mode, and it will at least reach 2.3 kHz in the normal mode. The radio actually performed much better in Radio World's bench test.

Thanks to Dan Bartek for handling this column for several years. As I have an up-to-date database for IDXA, I'll take over the column for now. Thanks to the four updaters from Ray Moore, Andy Rugg, Roy Millar, and Stan Morss; and as Rich Eddie rejoined recently, we'll add him back into the list, as we're continuing to list all current NRC members, no matter how long ago your last update was.

The purpose of this column, by the way, is to show just how many stations can possibly be verified in various locations, so that if you live nearby one of the DX'ers listed above, you might be able to hear some, all, or more than totals and best stations listed. Listings are for stations verified or taped (not heard). June's priority: Europe/Total veries. Now that DX activities have slowed down a little, why not recount your totals and send your updates to me ... by June 18 to be listed.

Information and advice of interest to inexperienced DXers

## The Geomagnetic Summary

Each month *DX News* includes the "Geomagnetic Summary" prepared by Phil Bytheway. The purpose of this "For Beginners" article is to discuss some of the information contained in the Summary and how it affects medium wave DX.

**QUESTION:** What is the Geomagnetic Summary?

**ANSWER:** It is a tabulation of information provided by the National Institute of Standards and Technology, which describes the state of the earth's magnetic field. A number of observatories throughout the world continuously monitor the earth's magnetic field (known as the geomagnetic field). In its normal or quiet state, the geomagnetic field appears very nearly steady in strength and direction. However, the instruments used to monitor the field frequently indicate short-term variations. These indicated variations have been observed for more than a century. For many years the cause of the variations was not known, but they are now known to be caused by clouds of electrically charged particles cast off by the sun, and which, as they travel through space, impact the geomagnetic field. Each day, the National Institute of Standards and Technology reports the activity of the geomagnetic field and predicts the activity level for the following day. The Geomagnetic Summary which appears in *DX News* is a tabulation of the daily reports for about one month.

**QUESTION:** How are the daily reports made public?

**ANSWER:** By several methods. The easiest way for most DXers to obtain the reports is by tuning to WWV and WWVH which broadcast continuously on 2.5, 5, 10, 15, and 20 MHz. The geomagnetic report is on WWV at 18 minutes past the hour and on WWVH at 45 minutes past the hour.

**QUESTION:** The Geomagnetic Summary uses the terms Solar Flux, A Index, and K Index. What do those mean?

**ANSWER:** Solar flux is radio frequency noise emitted by the sun. It is received on a specific frequency at an observatory in Canada. The solar flux measurement has been

found to be a convenient way to estimate the sunspot number. Higher sunspot numbers mean higher levels of ionization of the ionosphere. This is a long-term effect. Day-to-day solar flux variations have little if any impact on medium wave DX conditions.

The A Index and the K Index are measurements of geomagnetic activity. The A Index is a measure of activity averaged for a full day. A reading of 0 to 7 indicates a quiet geomagnetic field. A reading of over about 50 indicates a major disturbance, known as a major geomagnetic storm. The K Index is a measurement of activity for a 3-hour period of time. The K Index is on a scale of 0 to 9. A reading of 0 to 2 indicates that the field is quiet, while a reading over 5 indicates a major storm.

**QUESTION:** What does the state of the geomagnetic field have to do with medium wave DX?

**ANSWER:** The same clouds of electrically charged particles from the sun that cause the geomagnetic field to fluctuate, cause the ionosphere to be turbulent and erratic. Remember that the ionosphere, the ionized region of the earth's atmosphere extending from about 40 miles in altitude on up, contains zones of maximum ionization known as layers. Although the ionosphere always has some turbulence, and the degree of ionization varies greatly over time, in the normal condition the layers are reasonably well-defined and predictable. Long distance radio reception is possible because radio waves at some frequencies, entering the upper layers of the ionosphere, tend to be bent back down and returned to earth.

During a geomagnetic storm the upper layers of the ionosphere tend to break up and shift in position due to turbulence. The effect on medium wave DX is to cause erratic variations in signal strength, and generally reduced signal strength, although at times signal strength may actually increase. This disruption of the ionosphere during a geomagnetic disturbance varies with latitude. It is minimum over the equator and maximum over the poles.

Another common effect that accompanies a geomagnetic storm is greatly increased ionization of the lower levels of the ionosphere in the polar regions. Zones of increased

ionization form, centered on the magnetic poles. These are known as auroral zones. The size of the auroral zones is proportional to the severity of the magnetic disturbance that occurs at the same time. Therefore, the A and K indices are indicators of whether or not auroral zones exist.

As a matter of interest, the auroral zones are named for the aurora, those bands and streams of light that frequently appear in the polar regions at night (and which are caused by the same charged particles) and which occur at the same time.

**QUESTION:** What are auroral conditions and what is their effect on medium wave DX?

**ANSWER:** The effect of the auroral zones is to absorb medium wave signals passing

## More AM Radio History in Washington, DC - by Perry F. Crabill, Jr.

These comments were prompted by Thomas M. White's article about the history of broadcasting in Washington, DC, appearing in *DX News*, Vol. 60, No. 22, March 22, 1993.

I was born in 1920 and lived in the city or its suburbs until moving out of the area in 1982. As a youngster, I remember being allowed to listen to crystal sets my father built during the 1920s. However, I was too young to pay attention to call letters and other station information during this early period.

Later we were given a battery radio by friends who had bought one of the new a-c operated sets; I would judge that this was around 1928. We had a "B" eliminator for the plate supply, and used an automobile storage battery in the basement for the filaments.

By this time most of the early stations listed by Mr. White were gone. I do have some information about some of the other stations, as follows:

### NAA

This was the US Navy station for Washington, DC, located across the river in Arlington, Virginia, near Ft. Myer. It was on a ridge overlooking the city, and featured three tall steel towers sometimes referred to as "The Three Sisters". The tallest tower was about 600 feet in height, and could be seen for miles around. NAA transmitted on various frequencies; many of these were longwave, below the broadcast band, as well as shortwave.

Regular transmissions included time signals on various frequencies, starting at five minutes before the hour, and concluding on the hour with a long dash. These signals originated at the US Naval Observatory on Massachusetts Avenue in Washington, DC, and were the standard for time around the world before the advent of WWV and WWVH.

through them. Here in North America we say that auroral conditions exist when the northern auroral zone extends far enough to suppress signals from radio stations to the north of our location, and sometimes from the east and west, allowing reception of stations to the south, which normally cannot be heard. The extent to which auroral conditions affect DX varies greatly with geographical location. Often, auroral conditions are reported from one area during times in which DXers in other areas have not noticed them at all.

**REFERENCES:** This article has been written with reference to "MW Signal Paths", by Gordon Nelson, a NRC reprint. That article is recommended for additional reading on this subject.

Other naval stations relayed these signals; these included NBA, Canal Zone; NPM, Pearl Harbor, Hawaii; NPO, Cavite, Philippine Islands; NSS, Annapolis, Maryland; and NPG, Mare Island, California.

NAA was used as the US transmitting station for transatlantic voice communications with the French station at the Eiffel Tower. AT&T engineers took part in these tests, and I have been told that the first words transmitted were "Hello, Shreve", to the AT&T engineer at the French receiving station. I believe this was around 1915.

By the time I was old enough to pay attention to the NAA broadcasts on 690 kHz, they consisted only of transmission of time signal beeps beginning at 9:55 AM and PM, followed at 10 o'clock by a voice reading of a weather report from the US Weather Bureau. My recollection is that all broadcasts of time and weather on 690 kHz ceased as of June 1, 1936.

The towers were taken down sometime during or after WW-II, and operations taken over by NSS at Annapolis. The call letters NAA are still in use by the Navy station at Cutler, Maine, used to send encrypted messages to submerged nuclear submarines on VLF frequencies. Cutler also operates on shortwave. The original Arlington location of NAA became the headquarters location for the US Defense Communication Agency, and I have attended meetings in the old transmitter building. The antennas were long gone, but the bowl feed-through insulators still remained in place in the walls.

### WCAP

This station owned by the Chesapeake and Potomac Telephone Company is one of those that I don't remember. However, I do have

some information about the history of it, gleaned from C&P employees who were involved with it during its operation.

When WCAP went on the air, C&P appointed Barron P. Freeburger, W3DK, as Chief Engineer. I believe that Barron had previously worked in Baltimore as a motion picture operator. Barron and I became friends after I went to work for C&P in 1939; he was a foreman at that time.

Clarence Godfrey, W3---, was also involved with WCAP. Some time after the station was decommissioned, Clarence was in charge of the removal of the old broadcast tower from the roof of the telephone building at 722-12th Street, NW. Unfortunately, the crane operator let the tower get away from him after it was unbolted from its supports, and it crashed through the roof of the building.

At that time Washington's telephone service was manual, and the city's switchboard for the downtown area and government agencies was located on the top floor of the building. I don't believe any of the operators were injured, but Clarence told me that the girls fainted by the dozens, and he had to hire a fleet of taxis to take them home.

In later years the call letters WCAP were used by a station in Asbury Park, New Jersey.

#### WMAL

This 250-watt station on 630 kHz, owned by the M. A. Leese Optical Company, was at 712-11th Street, NW, only one block east of WCAP. Its tower was relatively short, and remained in place on the roof for years after the station moved to a site in nearby Montgomery County, Maryland. It carried programs from the NBC Blue Network.

#### WOL

This 100-watt station on 1310 kHz was located in the Annapolis Hotel, which was on "H" Street, NW, between 11th and 12th Streets. This put it halfway between WCAP and WMAL, but a block north of a line connecting the other two. I have wondered since what intermodulation interference must have been like in that area. WOL's antenna was a multiwire flat-top, supported between two pipe-type masts on the roof of the building.

I remember WOL signing off at 2 o'clock each afternoon, returning to the air some hours later for the evening. I learned that this daily shutdown was necessary to recharge batteries; however, I don't know whether these were transmitter filament batteries or some other supply. Their sign-off tune was called "The Goodnight Song", and they used this for the afternoon sign-off as well as the one at

night.

They were affiliated with the American Broadcasting Company; at some point WOL became the Mutual outlet for the area. Also, the frequency changed to 1230 kHz, and later 1260 kHz, with 1 kW, and the station relocated to the Maryland suburbs.

#### WRC

This 500-watt station on 950 kHz was originally located in uptown Washington, in the Riggs Bank building at 14th Street and Park Road, NW, with its antenna on the roof. This placed it several miles north of the other stations clustered in the downtown area. It carried the NBC Red Network programs. Eventually it moved to Queens Chapel Road in Prince Georges County with a new 5 kW transmitter and a 400-foot tower. The current frequency is 980 kHz, and it's now WWRC.

#### WJSV

This station's location in Mount Vernon Hills, Virginia, was near the city of Alexandria, and across the Potomac River from the Naval Research Labs at Bellevue, DC. This facility did a considerable amount of radio research; in fact, the first US radar experiments were made here. The Navy required WJSV to use a directional antenna to minimize the field strength of their 10 kW 1460 kHz signal at NRL; as a consequence, WJSV's signal was unusable in a good portion of Prince Georges County, Maryland, despite its proximity. Eventually they moved to what was then a rural transmitter site in Wheaton, Maryland, with 50 kW, and a three-tower array to protect KSTP in St. Paul, Minnesota. Call letters were changed to WTOP some time after the move, as I remember.

On "radio's moving day" the frequency was moved up 40 kHz to 1500 kHz. Granville Klink, W3AFV, was chief engineer for years; I believe he is still works for the station as a consultant. "Granny" has an audio tape that tells the history of WJSV/WTOP over the years, and it's well worth listening to. Although Arthur Godfrey got his early start in broadcasting in Baltimore, his career really took off after he became the morning disk jockey on WJSV. Incidentally, the "rural" transmitter site is now in the middle of a suburban Washington residential and business community.

#### WINX

For a long time in the thirties, Washington had only four stations; WMAL, WRC, WOL and WJSV. The next station to come along was WINX, located at 8th and I Streets, NW, in downtown DC; this may have been in the late thirties. It operated on 1310 kHz with 250

watts, but its nighttime coverage in the outlying areas of the city wasn't very good. At one time they operated at least two synchronized satellite transmitters on the same frequency. I believe there was one in Silver Spring, Maryland, and also one in Arlington, Virginia. Arthur Bugg, one-time engineer for this station, told me that the problem with synchronous operation was the area of "mush" or distortion in the equal-signal region between the master and slave transmitters. He tried to adjust the transmitters so the area of "mush" fell along the Potomac River for listeners in Virginia.

#### WBES

I had no prior knowledge of WBES before reading Mr. White's article, but I find it very interesting because I graduated from Bliss Electrical School in 1939, and went back in 1945 for three months during WW-II when it was operated by the Navy as a Primary School for Radio Technicians. When I entered the school in the Fall of 1938 there were no signs of WBES, and none of the staff ever mentioned the subject. During the Navy course an instructor told me that the school was

thinking of applying for an experimental license after the war, but I don't believe it happened.

#### W3XJ

During the thirties the Washington area had a TV station; this was W3XK, operating between 2,000 and 2,100 kHz using the rotating disk scanning arrangement of that day. The associated sound transmitter was W3XJ, using AM just above the broadcast band's upper limit of 1500 kHz. It could be heard on most broadcast receivers, and I listened to it from time to time. These stations were located near Wheaton, Maryland, and I remember seeing the antenna towers as we drove by. They were operated by C. Francis Jenkins, an inventor and experimenter who worked on facsimile developments in addition to television.

#### Conclusion

Most of the above information is based on personal recollections of the period involved, with some details verified by reference to Tom Kneitel's RADIO STATION TREASURY, 1900-1946.

morning competitors' here was Doug "Greaseman" Tracht, whose show from Los Angeles is now being taped at night and played the next morning on Atlanta's Z-93. Tracht is heard here nightly on WJFK-FM/AM (106.7/1300).

#### Santos Fired

WLTT-FM (94.7) Program Director Chuck Morgan yesterday called in vacationing evening host Al Santos to let him know that he could stay on vacation. "Chuck told me that they didn't think I was doing as well as I could do," Santos said. "They didn't think I was taking enough phone calls on the 'Love Lite,' " the four-hour weeknight love ballad show. Santos has hosted evenings and the popular "Sunday Jazz Brunch" since February 1987.

Don Davis, general manager of the CBS-owned Rockville station, declined to comment on Santos's firing. Davis said part-timer Tammy Jett will probably take over the evening show and Josh Cohen the Sunday program.

#### WMAL's Helping Microphone

The 21st annual Bill Mayhugh Leukemia Society Radio-thon, heard on WMAL-AM (630), raised a record \$1,635,508 over the weekend.

The 21-hour, noncommercial event was broadcast from the Fashion Centre at Pentagon City. The United Food and Commercial Workers International Union, which represents grocery store and hotel workers in the area and collects donations year-round, contributed \$1.4 million.

#### On the Dial

## Changing Identity of WWRC

By Jeffrey Yorke  
Special to The Washington Post

After six years with a talk format, WWRC-AM (980) has begun yet another search for an identity. Talk alone does not necessarily get big ratings, and WJFK-AM/FM (106.7/1300) has already satiated the market's appetite for provocative talk.

So, Peter Laufer has another idea.

Laufer, a former NBC Radio news correspondent who joined the ratings-anemic Silver Spring station last month as operations and news director, says longer-form news pieces will be blended into talk programming.

"If people are listening to something substantive, then they are also listening when the commercial message comes on [a theory used by talk radio to attract advertisers]. When it's repetitive drone, they just turn it off," said Laufer.

He said he expects to rely on a network of friends and associates, particularly those correspondents he worked with at NBC, to build an international stable of freelancers to report news pertinent to local issues and provide fodder for talk hosts.

"We are doing more and more in regards to news. The work of the news department is crucial to the success of the radio station," he said, adding that the relationship between news anchors and talkers will "continue to be developed."

Meanwhile, Laufer said he fired News Director Mary Ann Jennings two weeks ago because her position overlapped his duties. Jennings, who worked at WWRC for 18 months after leaving WTOP, where she directed the news operation, said last week she wants to "take some time off first" and "explore some jobs that won't keep me in a newsroom."

#### 'Majic' in the Mornings

Lorna Newton has joined Lawrence Gregory Jones as a morning-drive sidekick at WMMJ-FM (102.3). Jones said Newton, a Persian Gulf War veteran who was an entertainer in the Air Force until her recent discharge, performs "more than 10 character voices" and will help him create "a quiet adult contemporary 'Morning Zoo' but not a full-blown 'Zoo.' "

News Director Eric St. James will continue to anchor the morning news, Jones said. Meanwhile, St. James and Jim Allen, news director and morning anchor at sister station, WOL-AM (1450), are teaming to host "The Front Page," 30 minutes of news and commentary airing weekdays at 5:30 p.m. on the combo.

#### Where Are They Now?

Jim Elliot, once teamed with Scott Woodside at WPGC-FM (95.5) and later at WRQX-FM (107.3), last week called WPGC's new host, Donnie Simpson, to congratulate him on taking over the morning show earlier this month. Elliot, who worked at WBMW-FM (now WJFK-FM), WAVA-FM and again at WPGC after splitting from Woodside in July 1986, is now a vice president of promotion for a record company in New York and is heard weekends on the Big Apple's Z-100.

Woodside, meanwhile, is morning talk host at WGUN-AM, a CBS affiliate in Atlanta. "I love talk radio," Woodside said Sunday. "I don't have to compete with records anymore. And I don't have to hear 'Truckin' by the Grateful Dead every hour and 20 minutes."

Woodside continues to pursue an acting career and has appeared in two episodes of CBS's "In the Heat of the Night."

Coincidentally, one of Woodside's former

## Radio That's Just for Kids

IT'S 6:35 and the morning sun has just cleared the horizon. Westbound Beltway motorists watch in wonderment as sunlight dances against the spirals of the Mormon Temple. And at 1050 AM on the radio, WKDL morning host Kenny Curtis has just the right tune: "Here Comes the Sun" by the Beatles. But it hits the spot only by coincidence, because rush-hour motorists aren't Curtis's target audience. Kids are.

"You're listening to 'The All American Alarm Clock,'" Curtis tells listeners, "where a kid can be a kid. In fact, where anyone can be a kid."

At 24, Curtis is the youngest morning host on Washington radio, connecting with the area's youngest audience, children 4 to 12 years old. Curtis has some relevant experience; he also hosts "Fox 45 Clubhouse" on Baltimore's Channel 45.

WKDL signed on from Silver Spring this month. It is radio's answer to cable TV's "The Family Channel," but without the black-and-white reruns of a bygone day. Instead, it aims to reach some of the nearly 2 million children who live in the Washington-Baltimore area. Already there are kids' radio stations in Minneapolis, Los Angeles, Phoenix and Salt Lake City. More are expected to crop up as station owners discover this untapped market.

WKDL owners Larry Kessner and Virginia Carson expect to have their two other stations, WKDV-AM (1460) in Manassas and WKDH-AM (1230) in Baltimore, on the air with the same programming by the end of April. It's called the "KidsZone," the place to hear "Great Music for Great Kids."

The times are appealing, and not always just to kids. "Brother for Sale," by Mary Kate and Ashley Olsen, the twins who play "Michelle" on TV's "Full House," is currently in hot rotation on the station's playlist. Also getting play is a bouncy ditty by Cheech (as in "Cheech and Chong") that goes, "My name is Cheech and I'm a school bus driver." (You always wondered what became of him.) Cat Stevens sings "If You Want to Sing Out," and the Doobie Brothers' offer their rendition of "Wynken, Blynken and Nod." A number of Beatles hits from the "Abbey Road" album get airplay, including "Octopus's Garden" and "Your Mother Should Know."

The list of other artists reads like a "Who's

Ashley (or is it Mary Kate?) Olsen, whose "Brother for Sale" can be heard on kids' radio station WKDL.

Who" in contemporary, baby-boom pop music: Carly Simon, Carole King, Al Jarreau, James and Livingston Taylor, Amy Grant, Bruce Springsteen and Tom Paxton. And there are comedy cuts appreciated by the big kids as well as small; Allan Sherman and Spike Jones albums are in the studio.

But there is more than music and cute stuff. The newscasts include the most prominent news story of the day written so children can grasp the idea along with fun facts. In a bit called "Around the World in 30 Seconds," the audience is told that Indochina is made up of 3,000 islands and that 70 different languages are spoken there—all in one country. "Whaddya Know?" elaborates on the origin of such little-known or unknown facts as who invented spoons, who put the "butter" in butterfly and "why we park in a driveway and drive on a parkway," says Curtis.

Then for kids riding with their parents, Metro Traffic Control reports roadway conditions. And no kid should ever be cheated out of a weather report, so there are plenty of them.

When Curtis signs off at 10 a.m., "Radio Ash" takes over, syndicated programming from the Minneapolis-based Children's Satellite Network with host Robin Blair focusing

on educational songs about letters, numbers, colors, shapes and other developmental interests. For 30 minutes beginning at 1 p.m., "Storytime Theater" features Disney stories and classic adventures. More music follows until 8 p.m. when "Evening Theater" helps young listeners prepare for bed with fables and fairy tales. Then there's more music overnight. Nighttime listening gets a little harder the farther you get from the station's Piney Branch tower when power on WKDL drops from 1,000 to 47 watts at sunset, in accordance with its Federal Communications Commission license. The bright side of this is that parents don't have to yell "Suzy, turn off that radio and go to sleep!" The FCC has seen to that.

Meanwhile, a playful Curtis has quickly learned the importance of taking entertaining liberties with song dedications. "Here's a song going out from Hillary to Bill," he says, as his voice melts into bars of "Don't Stop Thinking About Tomorrow." Already, some of the kids have gotten the message.

—Jeffrey Yorke

**BROADCAST VIEWS** — Groups and individuals can watch a live broadcast of WKDL's weekday morning show. Up to 40 audience members sit on bleachers watching the proceedings. Call 301/588-1050.

ilities Program will provide a \$145,000 grant toward the estimated \$255,000 cost.

WETA is required to raise \$85,000 of the costs in the WETH listening area by the end of next month. A committee was formed months ago and last week began soliciting contributions from businesses in that region, Stuart said.

### For the Record

Alfred Liggins has dismissed an industry rumor that Cathy Hughes, his mother, would soon take a six-month leave of absence from her WOL-AM (1450) morning chat show to form a record company that would feature Hughes's companion, harpist Jeff Majors, as the label's star.

Liggins and Hughes own and operate soul-talk WOL and adult-contemporary WMMJ-FM (102.3) under the banner of Radio One.

"My mother is not going anywhere! She's got big numbers," Liggins said Sunday with a laugh. "She is not taking any time off . . . positively, absolutely, unequivocally, no."

In fact, Liggins said, six months ago he and Hughes started New Age Soul Music, a company that has sold more than 5,000 of Majors's CDs and cassettes through area record stores as well as at the radio stations. Majors's work

frequently gets air time on the conbo.

Liggins said he didn't know what Hughes was hinting at when she told her Friday audience that she had "a very special announcement that I hope we can make to the WOL family in the next couple of weeks," but he speculated that she could be talking about Radio One's negotiations to purchase five stations in two markets.

Liggins declined to identify the stations or the markets but predicted a deal would be cut in the next few months. The company also owns WWIN-AM/FM in Baltimore.

### Around the Dial

Country combo WMZQ-AM/FM (1390/98.7) collected \$202,258 for St. Jude Children's Research Hospital during a two-day marathon fund-raiser from Fashion Centre at Pentagon City that began Friday. WMZQ was one of 10 stations in the country that raised funds for the Memphis hospital over the long weekend . . . WVIC-FM (101.1) veteran weekend voice and production director Ernie Kaye said he has lost his job in a station "reshuffling" to make way for the new "Harris in the Morning" show. Kaye, 37, who hung his headset at DC-101 for more than 14 years, said he received "a generous severance" settlement.

# SOFTWARE PIECES • for the • MEDIUMWAVE BAND

Much has been written and even more has been said about the advantages of computer-aided DXing (CADx). Unfortunately, a disproportionately large number of those words has been advanced in support of DOS and Windows-based computers. There are however, a few of us Medium Wave DX'ers who utilize Macintosh computers in pursuit of DX. This article is intended to review and compare three different pieces of Macintosh Propagation Software: MacShortwave 1.0, Mac Mini MUF (no version number available) and DX Helper 1.4. All of these Applications were written for, and are aimed directly at Shortwave Listeners and/or Ham Radio operators. However, each one possesses at least a few qualities that likely will make them of some use to MWDX'ers. In addition, the benefits of utilizing MAP are detailed in the final section.

## Mac Shortwave

### Mac Shortwave: An 84K Application.

For MW DXers, this software is probably of the least use of the three. Still, it can be valuable when used with the understanding that it is intended for SWLs. Upon opening the Application, today's date is already displayed on screen, dependent upon the user having properly set the Mac's Alarm Clock. (See Fig. 1)

DISPLAY CHART CHANGE BUTTONS DEFAULTS

Fig. 1 Mac Shortwave opening screen

Forty-nine buttons also appear on screen. These buttons can be pushed by pointing and clicking the mouse. Forty of these buttons are "locations" that can be individually programmed by the user. These can be "target cities" (stations), or simply "indicator" cities located in general areas from where DX is desired. One button is reserved for the receiving location, and the other 39 are individually programmed via a simple procedure: Pushing the "Change Buttons" button executes a straightforward dialog box into which requested info can be keyed. Six additional buttons can then be pushed to set Month, Date and Solar Flux. (As with all Propagation Software, obtaining Solar Flux Values from WWV prior to utilizing this software is a must!) Pushing the "Display Chart" button executes a chart of projected Maximum and Minimum Useable Frequencies between transmitting and reception sites for a 24 hour period beginning at midnight, of any local time the

user chooses. Also displayed is distance (mileage) between transmitting and receiving sites, and bearing heading in degrees. (See Fig. 2) Pushing "Previous Chart" allows for overlay of up to 20 previously-generated charts (within the same session) for comparison.

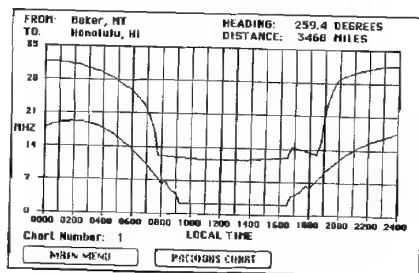

Fig. 2 Mac Shortwave chart screen

MacShortwave does have a few drawbacks, thus making it of "least use" of the three Applications to the MW DX'er. Most notable is its propensity for "flattening" the bottom end of the Max. and Min. UF curves at about 3 or 4 Mhz., even when the Max. and Min. fall below that. For MW DX'ers, this can be a bit frustrating considering that all frequencies DX'ed are considerably below that lower limit. Both Mac Mini MUF and DX Helper (reviewed below) bring the bottom of the curve to a much lower point.

Another of Mac Shortwave's drawbacks is its questionable accuracy. Going head-to-head-to-head with Mac Mini MUF and DX Helper, there can at times be huge discrepancies between Mac Shortwave's projection of MUF's when compared to the projections of the other two. Ninety-nine percent of the time, Mac Mini MUF and DX Helper agree to within a couple Khz. in their propagation projections. At least 50% of the time, Mac Shortwave's projections vary widely. In practice, I never allow Mac Shortwave to stand as the final authority on any particular day's propagation projection.

If for no other reason, MacShortwave can still be valuable to the MW DX'er in that it accurately displays bearing headings in degrees (for pointing loop antenna nulls) and accurately calculates mileages. In addition, a rough idea of Maximum and Minimum Useable Frequencies and times of occurrence can be obtained by using Mac Shortwave. This can at least supply the MW DX'er with a general idea of when and by how much the propagation conditions will be or have been changing, allowing for possible exploitation of an anticipated opening.

Mac Shortwave 1.0 is © 1989 and is priced in the under \$10.00 range as part of a package of Shareware that includes Mac Mini MUF. Contact Kinetic Designs, P.O. Box 1646, Orange Park, FL 32067-1646. It can also be obtained for a \$12.00 Shareware fee from its producer: BXA Research, 2704 Nighthawk Dr., Plano, TX 75025-2126. A newer version may well be available, but even after sending in my Shareware fee more than a year ago, no news on its availability has been forthcoming.

### Mac Mini MUF

**Mac Mini MUF:** A 53K Application. This Application is useful to the MW DX'er if for no other reason than because it accurately displays a propagation curve on its chart that goes down to as low as 2 Mhz., instead of simply flattening-off the bottom of the curve at some randomly-predetermined 3 or 4 Mhz. limit. In addition, a 24 hour, hour-by-hour digital readout accompanies the curve, for greater accuracy when trying to pinpoint a lower or upper limit. When the bottom of the curve falls into the below-5 Mhz. area, it is possible that propagation in at least the upper-end of the Broadcast Band may begin to be affected; It is

reassuring to the user that the digital readout resolves frequencies to a tenth of a Mhz.

There are no pre-set buttons to be programmed on Mac Mini MUF. The date is already displayed on screen upon the opening of the application, dependent upon the user having properly set the Mac's Alarm Clock. (See Fig. 3)

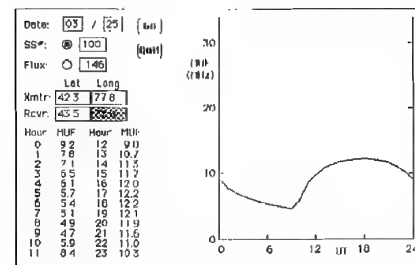

Fig. 3 Mac Mini MUF chart screen

Mac Mini MUF will accept either the standard-issue WWV Solar Flux Value, or its "Sunspot Number" equivalent. Upon opening the Application, the transmitting and receiving latitudes and longitudes automatically default to 42.3 lat., 77.8 long.; and 43.5 lat., 72.8 long., respectively (somewhere near Rochester, NY and Rutland, VT), and the Solar Flux Value automatically defaults to 146. All settings can be changed simply by double-clicking on the box and keying in the proper info. After having completed that operation, simply press the "GO" button and Mac Mini MUF displays an MUF chart.

Unfortunately, Mac Mini MUF is sort of a bare-bones propagation Application, and as such, displays no calculated mileages or bearing headings, as does Mac Shortwave. However, it appears to be quite accurate, at least when compared with DX Helper and against Mac Shortwave. When two Applications agree on propagation calculations and one is in disagreement by several Mhz., it's easy to question the one renegade.

Mac Mini MUF is © 1987 and was created by J. Scott Weaver KA2OV5, 5 Sayles St., Alfred, NY 14802. There is no

Shareware fee listed on my copy, but it is priced in the under \$10.00 range when purchased as part of a package of Shareware that includes Mac Shortwave. Contact Kinetic Designs, P.O. Box 1646, Orange Park, FL 32067-1646.

### DX Helper 1.4

**DX Helper 1.4:** A 191K Application. By far, the most complete, and therefore, the most useful of these three Applications. Upon opening the DX Helper, three boxes appear: Key in the receiving location's latitude, longitude and the current Solar Flux Value. Click OK. When the Application opens, the user sees a screen that features a Rectangular World Map, a scrolling list of Amateur Radio country prefixes, and five buttons: "Az/Eq Map", "Rect. Map", "Obblasts", "DXCC" and "Int'l". Of these five buttons, "Rect. Map" and "DXCC" are the defaults and thus, their accompanying graphics are displayed. (See Fig. 4)

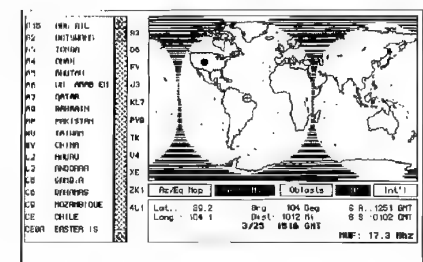

Fig. 4 DX Helper Rectangular Map screen

Pressing the "Az/Eq Map" button will execute a North Pole-projected Great Circle Map of the world centered on the receiving site's location. (See Fig. 5) Pushing "Obblasts" will bring up a list of Russian Oblast prefixes and corresponding Ham Radio-related info. Pushing "Int'l" will execute a list of international Ham prefixes. Selecting one of the prefixes will result in a box that details the name of the host country.

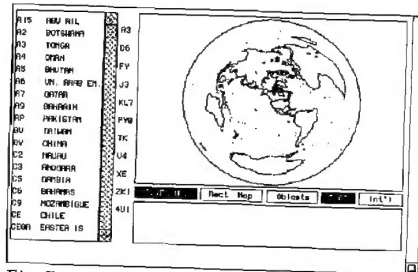

Fig. 5 DX Helper Az/Eq Map screen

Most of the info displayed when in the "Obasts", "DXCC" and "Int'l" modes is of little use to the MWDX'er, and thus will not be detailed here. Of major interest is the "Rect. Map": Choosing any spot on the globe and clicking the mouse will execute an info box with the following MWDX-pertinent information for the selected site: Latitude; Longitude; Time Zone; Bearing degrees; Distance (mileage); current date and time in GMT; Sunrise and Sunset (at the selected site); and MUF. Double clicking on the selected site will yield this same info box, along with a 24 hour propagation chart that also delineates the current time. (See Fig. 6)

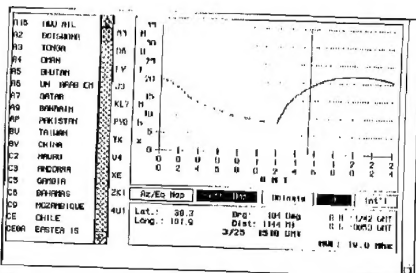

Fig. 6. DX Helper MUF chart screen

The Sunrise and Sunset listing feature is of particular interest to MWDXers interested in those particular modes of propagation.

In addition, DX Helper features the following: A display point (circle with a cross in the middle) on the Rect. Map that represents current noon, wherever in the world it happens to be; an option that allows for CW code practice; and an option that allows for the display of

current Gray Line. Also available is an option that allows for a Distance and/or Bearing List for major countries (based on the receiving site) to be printed to an ImageWriter printer. Under the Option Menu, an alarm can be selected which, when turned on, will automatically sound-off at 17 minutes past each hour (provided the Mac's Alarm Clock is properly set) to remind the user to tune to WWV at 18 minutes past the hour to receive the latest propagation information. Also under the Option Menu is a Refresh option that will automatically update the Gray Line and time every ten minutes to negate the need to restart the program to redraw the screen.

Perhaps the most interesting of the options offered is the MUF/Area/Gray Line Display. This allows the user to input an upper, mid, and lower frequency limit. The Mac will then display on the Rectangular Map the areas of the world where the MUF falls above and below the mid-point. (See Fig. 7)

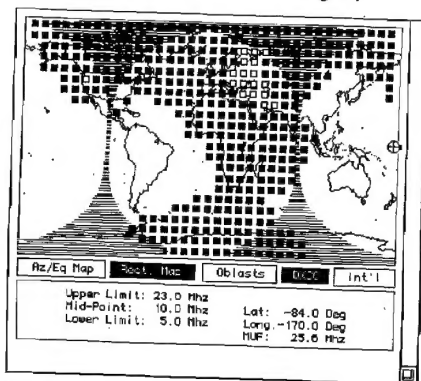

Fig. 7 DX Helper MUF/Area/Gray Line screen

In most instances this will be of limited use to the MWDX'er as the lower limit rarely falls into Broadcast Band frequencies, but during periods of abnormal propagation conditions, may prove to be quite useful.

DX Helper is not without its shortcomings. Most annoying is that it has no internal translator for converting the Mac's Alarm Clock to GMT. Thus, the

Alarm Clock must always be set to GMT (thereby displaying erroneous date and time for the user's local time zone when called up), or the user must always remember to re-set the Alarm Clock to GMT before using DX Helper, then set it back again to local time when shutting down.

Additionally, the MUF/Area/Gray Line feature typically takes up to six minutes to calculate an entire world map. And if the user's screen saver (such as After Dark) happens to kick-in during the calculation, cancelling it will not restore the MUF/Area/Gray Line calculation routine on the screen; it must be restarted, thereby tying up additional computer time. (Temporarily killing-off the screen saver is the most effective remedy for this malady.)

Another annoyance is that the Distance and Bearing Lists will print only to an ImageWriter; those of us with Bubble Jet or Laser printers must do without hardcopy (and the lists will not display on screen...!)

DX Helper 1.4 is © 1989 and was offered for approximately \$40.00 at release. To my knowledge, there has not been an updated version yet made available. It can be ordered from Mac Trak Software, P.O. Box 1590, Port Orchard, WA 98366.

Although each of the above Applications was written in the late 1980's, all are compatible with System 7. (Oddly, Mac Mini MUF will only run under System 7 with Virtual Memory "on" and set to 5 Megs.) Each will run under System 6.0x. If desired, all three can be run simultaneously on earlier Systems (a pseudo-simulation of one of System 7's tricks) if the user utilizes System 3.02 and Application Switcher 1.5 (contact me personally for more info on this; Application Switcher may no longer be marketed or available through software outlets.)

## DX Locator

**MAP:** A 38K Application. Often it is beneficial to the MWDX-chaser to have an at-hand reference of major ("target") cities and their concomitant latitudes/longitudes. Goode's World Atlas is a favorite at this shack for pin-pointing the center of selected cities. However, beginning with System 6.0x or so, Apple has offered a Control Panel utility labeled "MAP". MAP displays a scrolling world map with the user's current location highlighted, and comes from the factory with most of the major world cities' latitudes and longitudes pre-programmed. Additional cities can be keyed-in by the user. (See Fig. 8)

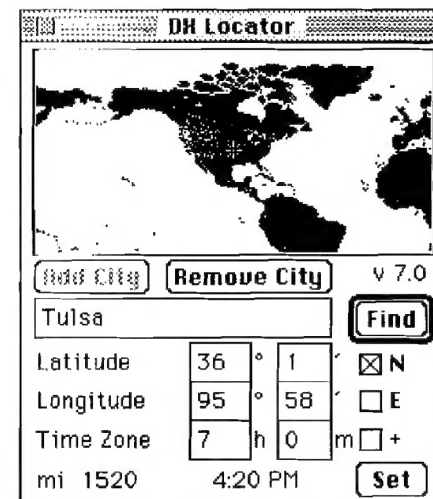

Fig. 8 MAP/DX Locator screen

In addition, MAP will display the Time Zone of selected city, current time in GMT (dependent upon the user having correctly the Mac's Alarm Clock), and mileage between receiving site and selected city (particularly useful when double-checking Mac Shortwave or DX Helper!)

The wise MWDX'er learns that MAP can be a useful supplementary tool

when utilizing any of the reviewed Propagation Software; no longer must the user dig through hardcopy references to locate coordinates for the target of choice; quickly referencing MAP will supply the necessary data (provided it was properly keyed-in by the user!) I have re-named my copy of MAP "DX Locator" (for alphabetical purposes) and placed it under the Apple Menu to allow for quick reference. Because I reside on the west coast, my "DX Locator" is chock-full of California, Hawaii, Arizona, Washington, Oregon, Idaho, Montana, Nevada, British Columbia, Alberta and Utah cities. Custom-tailoring of MAP will allow each individual user to best suit his/her own needs. MAP is © 1987-1991 and is available (if nowhere else) from Apple dealers (as part of their "free" System upgrades.)

Even though the IBM-knockoff groupies apparently out-number us, there is still room in the MWDX world for us Mac users. Anyone who has tried, who is willing to try, or is currently using any of the above-mentioned software and would like to compare notes is encouraged to contact me. Comments and/or suggestions are, of course, welcome. I can be reached through the IRCA Membership List.

*Review of the above software Applications does not, in any manner, constitute an endorsement of the product or a recommendation of purchase by the author.*

*This article was written and compiled on a Macintosh LCII/80, utilizing MicroSoft Word 4.0, PageMaker 4.2 and TypeStyler 2.0. Graphics are "snapshots" of actual on-screen displays.*

*Changes in programming status; reported by listeners*

Congratulations to Eric Bueneman who now writes that he is the owner of KXLW-107.1, in Hazelwood, MO! Eric is currently formatting oldies on his station, which he put on the air at 3:12pm, on 1-18-91. Hopefully, Eric, you will avoid motivational talk, business news, and satellite fed music with bland announcers, three of the biggest wastes of air time one can imagine. Seriously, Eric, the very best of luck with your endeavor!!!!

I am planning my annual railroad (and, I hope, radio station) trip for July. I do not know where to this time. A new, rapid transit line in Chicago will not open by July, so may forgo the Windy City and St. Louis (another soon to open commuter rail line using Light Rail Vehicles may open this summer) for another time. Other options is trip through Pittsburgh, Atlanta, Baltimore, Washington and Miami. Hope to get the Station Profiles column back on line.

Other than Eric, Musings editor Dave Schmidt and the *M Street Journal* are our contributors for this edition of Formats. Here we go with the hopes and business decisions from the broadcasting world.

550	KMVI HI	Wailuku	- Mix of AC and Hawaiian music (M).
570	KQNG HI	Lihua	- AC (M).

### VIRGIN RADIO 1215

Thank-you for writing in to Virgin Radio. We are pleased to send you the following information on VIRGIN 1215.

- \* VIRGIN 1215 is the first national commercial rock station to be launched in Britain.
- \* The licence was granted by the Radio Authority in Spring 1992, to a joint venture company formed by Virgin and TV-am. On 8th March, Virgin increased its stake to 75%, while venture capital company Apax acquired the remaining 25% from TV-am.
- \* The station will go on air at 12.15 in the afternoon on Friday, 30th April.
- \* VIRGIN 1215 will broadcast quality rock music 24 hours a day.
- \* It's guiding principle will be 'Much More Music', with intelligent and informative comment, not DJ chatter.
- \* The music will encompass all the classic tracks of the past 25 years. Not Golden Oldies, but great music for the generation who grew up knowing the difference between good music and the rest - and who still listen to the best of the new music today.
- \* Virgin 1215 will be the first station to broadcast a weekly chart show concentrating on best selling albums - the only accurate guide for listeners who take their music seriously.

The Network as a whole is based on that formerly occupied by BBC Radio Three. However, we have installed new Harris DX50 transmitters at Brookmans Park, Washford, and Droitwich. Moorside Edge has two new DX50 units, (running in parallel) and Lisnagarvey has been equipped with a new Harris DX10 transmitter. (Westerglen in Scotland already operates a DX50 unit). Several other improvements have also been made, notably the addition of relays transmitters for those areas where surveys showed reception was below par.

our signal is also benefiting from the use of optimod audio processing and we have had a unit fitted at each individual transmitter site, providing us with the ability to "fine tune" each and every transmitter for optimum performance. In addition, the optimod units have been customised to provide us with "brighter" audio quality, and so far, all reports we have received indicate that this has met with your whole-hearted approval.

Virgin Radio  
No. 1 Golden Square  
London W1R 4DJ  
Telephone 071 434 1215  
Facsimile 071 434 1197

-via Andy Ridgway, who notes that several stations, including Brookmans Park, Moorside Edge, Washford, and Westerglen are now at higher powers than those stations formerly on the old BBC Radio 3 network. Andy also says that he'd be happy to answer questions about radio in England - contact him at "Broadview" Peasmarsh - NR Rye - East Sussex TN31 6YJ England.

The following list shows all those transmitters which are expected to be in operation by the beginning of full test transmissions on April 1st 1993.

TRANSMITTER STATION	COUNTY	FREQ (kHz)	RADIATED POWER (kW)	NATIONAL GRID REFERENCE
BRIGHTON	Essex	1215	1.1	TQ 234051
BROOKMANS PARK	Herts	1215	125.0*	TL 259050
CHELTENHAM	Glouc	1197	1.0	GO 841230
CHESTERTON FEN	Cambs	1197	0.2	TL 477608
DARTFORD TUNNELL	Essex	1215	0.004	TL 571769
DROITWICH	Worcest	1215	105.0*	SO 929663
DUNDEE	Scottland	1242	1.0	NO 431290
FAREHAM	Hants	1215	1.3	GU 545058
FERN HURROW	Borndt	1197	0.5	SA 070926
HULL	Yorkshire	1215	0.3	PA 169258
HOO	Essex	1197	2.0	TQ 790720
KINGS HEATH	Northants	1197	0.5	SP 740633
LISNAGARVEY	N Ireland	1215	16.0	TD 258619
MANNINGTREE	Essex	1224	0.5	TM 123295
MOORSIDE EDGE	Yorks	1215	250.0*	SE 070154
OXFORD	Oxon	1197	0.5	SP 567105
PLYMOUTH	Devon	1215	1.1	EX 490585
POSTWICK	Norfolk	1215	1.2	TG 303086
REDMOSS	Grampian	1215	2.3	NJ 942024
SHEFFIELD	Yorks	1242	1.0	SK 348849
STOCKTON	Cleveland	1242	1.0	NZ 420218
TORBAY	Devon	1197	1.0	EX 878630
TROWELL	Notts	1197	1.0	SK 506398
WALLASEY	Merseyside	1197	2.0	SJ 305926
WASHFORD	Somerset	1215	100.0	ST 058410
WESTERGLEEN	Scotland	1215	100.0*	NS 868773
WREKENTON	Tyne & Wear	1215	2.0	NZ 274598

Notes: The services at Hoo, Manningtree, Sheffield and Wallasey are being provided on a temporary basis until plant and facilities can be made available permanently. The radiated powers at these sites may, therefore, be lower than that of the final service.

\* Denotes directional aerial pattern in use. Virgin 1215 will be radiating in excess of 700kW, making it one of the most powerful commercial radio stations in the world!

Thank you for your interest in Virgin 1215 and taking the time to write to us. I will arrange for a QTH card to be sent to you in due course.

Kind regards

Lincroft, NJ 07738

#### FOR IMMEDIATE RELEASE

Because of a major "Nor'Easter" storm that knocked out power along the Eastern seaboard, many listeners were unable to hear WNEW's final broadcast as a music station on Friday, December 11, 1992.

Now, through the magic of audio tape, and one person's attitude of 'have boombox, will travel,' the final Mark Simone afternoon drive program, and other waning moments in WNEW's history are available from CJA.

"The Last Days of WNEW, 11-3-0 in New York" is a 90 minute composite offering you one last listen to WNEW's morning drive, the midday "Make Believe Ballroom" with Jim Harlan, and afternoon drive with Mark Simone. You'll hear some of the great moments in station history recalled as Simone chats with Bruce Williams, Paul Cavalcante, Jay Trelease, and longtime WNEW announcer Ted Brown. It also includes many station jingles, and various bandleaders' renditions of the WNEW theme.

WNEW first gained fame as a music station during the coverage of the Lindbergh baby kidnapping trials, when announcer Martin Block played records during breaks in the trial coverage. (WNEW being a new station couldn't afford to have live bands play in the studio, as was the norm in that day). But Westwood One, getting out of the radio ownership business, and Robert FX Sillerman, each sold their half ownerships to Bloomberg Financial, and business news is now broadcast at 11-3-0h in New York.

"The Last Days of WNEW, 11-3-0 in New York" is delivered on name brand audio cassette and lists for \$6.00 postpaid to North America (overseas add \$1.00)

WQXR-AM New York decided to end its simulcast with 96.3 FM, and picked up the big band / nostalgia format early in December of 1992. A companion tape, "The First Days of WQEW" lets you hear the changeover from classical to "American Popular Standards", and a sample of each air personality hired to keep the format going in New York City. This tape also lists for \$6.00 North America, \$7.00 elsewhere.

Those who wish to order both tapes can do so for just \$10 N.A., \$12 overseas

CJA also offers other historical material such as the last days of WNBC, some WABC, the startup of W1AN on 1050 and then on 660. An 18 page listing of tapes is available for a large SASI with 52 cents postage on it (free with any order).

**EXTRA SPECIAL OFFER: TAKE AN EXTRA DOLLAR OFF EACH TAPE BY MENTIONING THE NATIONAL RADIO CLUB OR THE DX AUDIO SERVICE.**

Please note ... inclusion of product notices in DX News does not constitute an endorsement of those products by the National Radio Club, Inc., or by its officers. Informational product notices are for the convenience of NRC members. DX News does not accept paid advertising.

## "Latin America by Radio" — by Henrik Klemetz

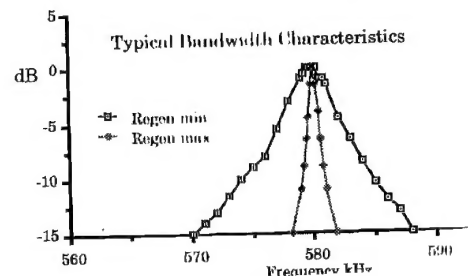

168 pages of tips and suggestions for the non-Spanish-speaking Latin American DX'er. Includes tips on identifications, catchwords, speech patterns, music, newscasts, advertising styles, brand names, weather and time check formats, and much more. \$17.95, from NRC Publications. NY orders, add sales tax.

## Bruce Elving's FM Atlas ...14th Edition

The world-famous guide which has served FM DX'ers for over 20 years is available from NRC Publications at the special price of \$12.00. NY orders, please add sales tax.

## High Performance MW Air-Core Loop Antenna

The loop antenna is made of the finest materials. The control surface shown above, is housed in a heavy duty steel chassis. Connection of the antenna to the control surface is by way of an eight foot control cable. The antenna uses teflon for all pivot points and the antenna is made entirely of non-metallic parts to prevent interaction with the loop antenna element. The antenna is hand crafted in the USA and carries a one year warranty.

Dimensions: overall height 17 inches, 43 cm  
Weight: 16 pounds, 7.25 kg

- The antenna may be rotated for maximum signal pickup.
- The antenna "tilt" control includes 1 to 1 gear reduction for precise nulling of local signals and interference.
- The antenna "tilt" control can be adjusted to  $\pm 90^\circ$  from vertical. The amount of tilt can be read directly in degrees on a scale.
- The 6 dB bandwidth may be adjusted from 15 kHz to less than 2 kHz for razor sharp selectivity. Balanced regenerative feedback provides antenna bandwidth control.

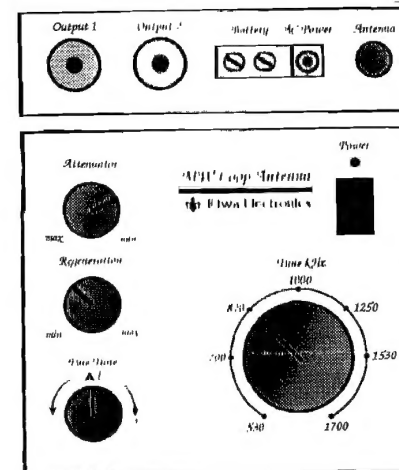

The antenna is now available and we are currently filling orders. The normal price is \$330.00, but from now until the 30th of April we are offering the antenna at a special **Introductory Price of \$280.00.**

All orders must be postmarked by the 30th of April to qualify for the Introductory Price. The antenna comes with a 30 day trial period and a one year warranty.

**Introductory Price: MW Air-Core Loop Antenna \$280.00**  
Shipping and Handling via UPS (continental US) \$10.00  
Shipping and Handling via UPS to Canada \$17.00

**Method of Payment:** Payment must be in US funds: personal checks, postal money orders, cashier checks.

KIWA Electronics 612 South 14th Ave. Yakima WA 98902 Tele: 1-800-398-1146 or 509-453-KIWA

#### Four panel layout

Two connectors can be connected to Outputs 1 and 2 simultaneously. The output connectors mate with a PL-259 coax connector. Power is supplied by a modular transformer or by a 12V VRLA auto or motorcycle battery.

#### Front panel layout

The attenuator adjusts the output level to the receiver(s).

The regeneration control performs as a variable bandwidth control. As the regeneration is increased, the bandwidth narrows and the gain increases. The regeneration control provides typically up to 75% bandwidth reduction as it is adjusted from the minimum to maximum position. Typical bandwidth characteristics are shown below when measured with a center frequency of 580 kHz.

The main tuning control tunes from 530 to 1700 kHz.

The fine tuning control augments the main tuning control for precise tuning of the antenna.
